THE FIREMEN.

Proceedings of the National Convention of Chief Engineers.

NEW YORK, October 6.—The Firemen's Convention resumed its session this morning with President Hendricks in the chair. The Committee on Topics presented the following for report and discussion by its several Commissioners:

First—The importance of the permanent position of the Chief and Assistant Engineers.

Second—The evils of social visits by the engine companies, by which towns are left wholly or partly unprotected.

Third—The importance of regulating the sale of petroleum.

Fourth—The danger of gasoline gas machines, and the necessary precautions to regulate the same.

Fifth—The duty of fire departments in relation to the protection of property from damage by water as well as from burning.

Messrs. Hall and Sexton, of St. Louis, Joseph Williams, President of the Washington Board of Fire Commissioners, and Commissioner Bowers, of New Haven, discussed the question on negative. The topic was finally referred with the others to Committees for consideration and report.

Resolutions of sympathy and respect for the firemen recently killed by the fire accident were adopted. The convention sent their congratulations to Chief McFrew, of Cincinnati, on his recovery from a recent dangerous illness. Following are the Committees on topics:

Sixth—The importance of arranging the iron shutters that they may be opened from the outside of the building in case of fire.

Seventh—Uniformity of construction and the closing of signal boxes.

Eighth—Importance of uniform system of indicating location of street hydrants on street lamps.

Ninth—Which is the most effective plan for fighting petroleum fires.

Tenth—The importance of a thorough investigation of fires and a vigorous punishment of incendiaries.

The first of these topics was debated in the affirmative by Chiefs Little, of Davenport, Iowa, Benner, of Chicago, and Durfee, of Fall River, Massachusetts.

On the first topic George T. Page, H. H. Hall, of the National Board of Underwriters, and Chiefs Bennett, Haynes and Sexton.

Second Topic—Chiefs Levi, Benner, Green, of Boston, Jarvis and Hopkins.

Third Topic—Chiefs Green, of Providence; Battle, Amstie and Mr. McLean, of the New York Insurance Board.

Fourth Topic—Chiefs Bates, Bliss, Brown, of Newark, Smith and McCall.

Fifth Topic—Chiefs Johnson, McFadden, Farnier, Hermwaller and Hobson.

Sixth Topic—Chiefs Benner, Bliss, Fitchey, O'Conner and Wachler.

Seventh Topic—Chiefs Toton, Blair, Curier, Dougan, and Bown of Fair Haven.

Eighth Topic—Chiefs Collyer, Bliss, Chice, Eckel and Sefpone.

Ninth Topic—Chiefs Levi, Hills, Cronin, Lippert and Hutchins.

The National Association of Fire Engineers continued in convention this evening. A number of inventors were present with their inventions, which they exhibited to the meeting. A model of the fire escape or aerial ladder now used by the Milwaukee Fire Department, was exhibited. It was decided to hold the next annual convention on the first Monday in September, 1876, in Philadelphia. An invitation was received to attend an exhibition of a respiring apparatus, by using which a person can remain for nearly half an hour in a dense smoke. The convention will attend the exhibition to-morrow.

The various committees appointed at the morning session reported as follows: Hydrants should be located near street corners, if possible, and there should be plenty of them where large blocks of valuable warehouses exist. Vigorous search and thorough inquiry should be made into the origin of all fires, and incendiaries promptly punished. The committee recommend the use of iron shutters with fastenings capable of being opened from the outside. The position of chief engineer should be permanent, as it was one requiring long study and experience, and politics should be kept far away from the position. An engineer who has to devote himself to politics to make him secure in his position must necessarily neglect his department. A patrol and salvage corps in all cities of 50,000 or more inhabitants is recommended. The evils of visits of fire companies with apparatus from one city to another are apparent, and the committee recommend their discontinuance. Laws should be passed to that effect. The use of chemical engines, with carbonic acid gas, is recommended as being peculiarly adapted for the extinguishing of petroleum and other oil fires. Gasoline was denounced as being extremely dangerous, and its manufacture has been the cause of many fires. The generators for making it should be outside and not less than sixty feet away from the building they supply. It was recommended that all fire alarm boxes be painted a bright red, and be constructed uniformly. The sale of petroleum in cities should be prohibited when the flashing point goes below 110 degrees. It is always liable to explode when not up to this standard. The convention will adjourn to-morrow.

FIRE RECORD.

Menosha, Wis.—$10,000.

MENOSHA, Wis., October 6.—Early this morning a fire, originating in the engine room of M. B. Kelley's machine shop, destroyed that building with its contents. Loss, $10,000; insurance, $3,000.

Passaic, N. J.—$75,000.

NEW YORK, October 6.—The bobbin factory of the Van Riper Manufacturing Company, at Passaic, N. J., the largest of the kind in the country, was totally burned. Loss, $75,000.

Movements of the Presidential Party.

PUEBLO, COL., October 6.—President Grant and party arrived in this city by special train from the North to-day. On their arrival they were met by Mayor Price and members of the City Council, and escorted in carriages to various points of interest around the city. On their return the President had a reception at the Lindell Hotel, where many citizens paid their respects to him. The President was suffering from cold, and did not make a speech. His reception was very enthusiastic, and the first visit ever paid by the President of the United States to Southern Colorado will be long remembered by our citizens. All of the members of the party as well as the President expressed their admiration of the country and climate, and surprise at the remarkable progress made here during the past few years.

MUCH CRY, BUT NO WOOL.

The Rumored Outbreak of the Colored People at Friar's Point, Mississippi.

MEMPHIS, TENN., October 6.—The impression prevails here that there will be no bloodshed at Friar's Point, and notwithstanding the numerous telegrams for men and arms, no steps have been taken to forward either. The *Appeal's* reporter, now at Helena, telegraphs this morning and says that accounts from Friar's Point late last night state that Senator Alcorn and Sheriff Brown, colored, were the cause of the apprehended trouble. At the Convention on Saturday night, Alcorn denounced Brown severely, and on Sunday Brown used severe language in reply, and said he wanted his friends to come to town on Monday and he would expose Alcorn, who then threatened to shoot Brown. The latter then summoned a number of negroes, who prepared to come to his assistance. Tuesday Alcorn sent to Helena to General Tappan, of the State militia, for arms and men, but only a few men went down; as the people here have no sympathy in the fuss, which they consider a personal grievance between Alcorn and Brown, growing out of Ames' antagonism to Alcorn and a desire to have distubance, so as to have troops sent to Mississippi. Latest advices state that Alcorn has seventy cavalry and forty infantry, with which he had driven Brown and 200 armed negroes, who retreated three miles from town, where they made a stand. No fighting had yet occurred, and no body of men has left, or will go from Helena. This, in substance, is the cause and nature of the difficulty, which is purely personal and political, between Alcorn, Brown and Ames, who is determined to demolish Alcorn's political strength, and employs Brown, who excites the negroes to his assistance.

The steamer Maud, just up, reports that there has been no fighting at Friar's Point, and that affairs remain as they were yesterday and last night. It was not advisable for Memphis to send troops. In order to arrive at an understanding of the state of affairs there, as shown in a foregoing special, it may be stated that in the county of Coohama, the negroes have a majority of five to one as against the whites, and that since the split in the Republican ranks in the State, Sheriff Brown, who is a Kentuckian, has been leader of the anti-Alcorn party. Friar's Point is the home of Senator Alcorn, and the contest between the rival factions has been a heated one.

MEMPHIS, TENN., October 6.—The following to the Associated Press has just been received:

FRIAR'S POINT, MISS., October 5, *via* HELENA, at 3 A. M., October 6.—The Sheriff of Coohama county caused our town to be invaded this morning by an armed mob of negroes. We drove them back. We are fully organized for defense, with Senator Alcorn and General Chalmers in command. The Sheriff has fled the country. Send aid immediately.

[Signed] H. P. REID,
GEO. R. ALCORN.

FRIAR'S POINT, MISS., October 6.—I have just arrived per steamer Julia. At eleven o'clock in the morning the citizens are all under arms, and anticipate an overpowering attack from the negroes, unless 300 men can come here to deter the negroes from further violence. Business is suspended, and the citizens are in a dreadful state of alarm. The negroes, five hundred strong, attacked Friar's Point yesterday, but were repelled by the white forces under Gen. Chalmers. They threatened to burn the town and murder the white women and children. Fighting commenced within three miles of Friar's Point, where the negroes made a stand. The fighting was kept up to Clarksdale. As yet there is no reliable statement as to the losses, and pickets just in report fighting in the vicinity of the Oakridge road. Eight negroes are reported wounded in yesterday's fight, and one white man. Sheriff Brown is now at Jonestown, fourteen miles east of here, reorganizing his party for the supposed purpose of another attack on Friar's Point. The negroes are reported rendezvouing in large numbers. So far as I can ascertain, this is no party movement, both Democrats and Republicans being united to resist an incendiary effort on the part of Sheriff Brown, who has been making incendiary speeches to the negroes and organizing them into armed bodies, upon the idea that the whites intended to kill them, when, in fact, the whites had not uttered any such intention, nor held any meetings for such purpose, nor did they hold a meeting of any kind. I am assured of this by Senator Alcorn, Judge Harrison, P. Reed and other prominet citizens, who believed that the presence of aid would prevent a collision between the whites and blacks. The former dread such an occurrence, and will only act in defense of their lives and property. This is the last telegram that will leave here to-day, and is forwarded by a special commissioner to Helena. The commissioner will wait there to know what action shall or may be taken by citizens of Memphis. General Chalmers and his cavalry have not yet returned to town.

MEMPHIS, October 6.—There is very little excitement here in regard to the apprehended troubles at Friar's Point, and as yet no men have gone there.

MEMPHIS, October 6.—The *Appeal's* special from Friar's Point at 11 A. M. to-day reports that a skirmish occurred between the whites and blacks near there, last evening, and eight negroes and one white man were wounded. Everybody is under arms, and further appeals are made for help.

MEMPHIS, October 6.—THIRD DISPATCH—An *Avalanche* special from Helena, received at nine to-night, says: From Captain Isaac N. Brown, who is just from the seat of war, I learn that all was quiet at Friar's Point. The negroes, numbering about 1,000, collected near the town, and the whites requested Sheriff Brown to disperse them. He went out and told them to go home, which they refused to do. General Chalmers ordered them to disperse, which they did, but collected again, when Chalmers charged them and drove them off by firing over their heads. They again collected behind a bayou, and Chalmers flanked them and fired again, this time wounding some of the negroes. He kept driving them until he reached Clarksdale, when they all disappeared, they stopping at their homes as they were driven back. It was understood that the negroes were again collecting at Jonestown, Alcorn's place, and Chalmers was going out there to disperse them. Chalmers has some two or three hundred men, and the negroes fly before him whenever he makes a charge. One white man has been wounded. It appears to be, as it always is, that the negro has to suffer, as he cannot stand before an organized force of white men. This trouble will cost the people, white and black, a great deal, as no cotton is being gathered and every day counts. Major Alcorn says the hired cotton pickers are leaving, and the loss of cotton would ruin the people generally.

MEMPHIS, TENN., October 6.—FOURTH DISPATCH—Another special to the *Avalanche* from Helena says that Brown, the colored sheriff of Coahama, arrived there to-night, and says he became detached from his friends early in the trouble and went on foot to Austin to obtain the assistance of Sheriff Manning, of Tunica county, a white man, to go to Friar's Point and peaceably settle matters, he found that Manning had gone down on the steamer, and he came on here in a skiff. He says he intended to go down on the Allen in the morning. He does not talk warlike at all, and thinks the difficulty can be settled without more trouble. He knows nothing of the particulars in regard to the fighting.

Sixth Annual Session—Finances of the Body in a Bad Way.

CHICAGO, October 6.—In this morning's session of the American Board of Foreign Missions the Financial Committee made a report, in which the finances of the Board were shown to be in a very bad condition. They recommended urgently that special assessments be made on the various churches, in order to do away with the indebtedness. Discussion ensued, during which some members spoke in most discouraging terms of this method. The matter was made a special order for this afternoon.

The Prudential Committee on Organization of the Board reported favoring some changes in the manner of choosing corporate members. A letter from Dr. Rufus Anderson, of Boston, resigning the membership of the Prudential Committee, was read and referred to that committee.

Rev. Robert Clark, Foreign Secretary, read a paper on the work of the American Board. This was a lengthy review of the progress of the board since the last meeting in Chicago, two years ago. The report of the Committee on Nominations of Committees was then read and adopted. The committees were assigned places for meeting, to arrange their reports and statistics.

In the afternoon the financial problem was considered. Dr. Worster stated the reasons why the committee recommended special taxation for churches. The Board wished to prosecute its work in Papal lands, and not to give up that in heathen countries. Dr. Chapin said the Board was formed to spread the Gospel among the heathen, and argued that the work should be confined to that field. After a lively discussion, in which many of the members took part, the question was laid over for the present.

In the evening addresses were made and several reports submitted.

WASHINGTON.

Pueblo Indians to the Front

Hunting Relief at Their Own Expense.

Special Dispatch to the Commercial.

WASHINGTON, D. C., October 6, 1875.

A delegation of Pueblo Indians from the Pueblo of San Juan, New Mexico, arrived in town this morning, and called upon the Commissioner of Indian Affairs. They said that they had paid their way here, but were in need, and called for aid. They had a letter addressed to the Commissioner of Indian Affairs from Indian Agent Thomas, dated Santa Fe, April 26, 1875, introducing them, and saying "they go to Washington at their own expense, to see the President, the Commissioner of Indian Affairs, the Secretary of the Interior, and others. They make the trip with a view to combining business and pleasure." They also had a letter addressed to the President from the representative men of their tribe, praying that the Great Father would prevent Mexicans from raiding on them, and dispossessing them of their lands. They were dressed in aboriginal costume, with blankets, buckskin leggings, &c., and the two younger carried silver-headed ebony canes, one bearing the inscription "A. Lincoln, President of the United States, a Taos, 1863," and the other "A. Lincoln, President of the United States, a San Juan, 1863," which they claimed were presented to them by President Lincoln. The other, an old man with gray hair, carried a bow and arrow. These Indians are among the few survivors of the famous Aztec race of Mexico. In reply to questions by the Commissioner they said their fare to Washington cost them $225, which they were several months begging in New Mexico. They were twelve days *en route*. The Commissioner said he supposed he must take care of them temporarily. They will have another interview with the Commissioner to-morrow.

WASHINGTON, D. C., October 6, 1875.

INDICTMENTS AGAINST THE TREASURY ROBBERS.

Among the true bills returned by the Grand Jury are eight in connection with the recent robbery of the United States Treasury of over $47,000, as follows: Against Benjamin B. Halleck, two indictments, one each for larceny and embezzlement; Wm. H. Ottman, three indictments—grand larceny, receiving stolen property and receiving embezzled money; T. W. Brywn, three indictments—grand larceny, receiving, concealing and attempting to conceal stolen money, knowing it to have been stolen and embezzled. The offense is punishable in the statute by confinement in the Penitentiary for not more than seven years, or by fine of not more than $7,000, or both, at the discretion of the court.

BOYNTON VS. SHERMAN.

The announcement of a lengthy review of General Sherman's memoirs, made up chiefly from official records of the War Department, reached here to-day. It will make a volume as large as one of Sherman's. Free access to the official files for the purpose of making this compilation was given at the department to the author. It is by General H. V. Boynton, and will be published in a fortnight by Wilstach & Baldwin, of Cincinnati.

OFFICIAL DEAD HEADS BY MAIL.

The following value of official stamps and stamped envelopes were issued to the several Departments for the first quarter of this year, ending September 30: Executive Department, $201; Treasury Department, $62,000; War Department, $15,807; Navy Department, $4,540; Postoffice, $139,431; Interior, $22,830; Justice, $540; Agriculture, $1,000; total, $246,357.

OF UNSOUND MIND.

To-day, in the Criminal Court, Judge Wright as the next friend of Charles G. Fisher, late Assistant District Attorney and now in jail awaiting trial, filed a petition for a writ of *habeas corpus*, representing that Fisher, being of unsound mind, is not responsible for his acts. Judge McArthur will hear the application on Saturday.

CASUALTIES.

A Prominent Citizen of Steubenville Dangerously Injured.

Special Dispatch to the Commercial.

STEUBENVILLE, O., October 6, 1875.

Mr. A. J. Beatty, of the well known firm of A. J. Beatty & Sons, extensive glass manufacturers of this city, was run over and dangerously injured by express train No. 1, bound East, on the Pittsburgh, Cincinnati and St. Louis Railroad, this evening. He was walking on the track in a heavy rain and wind storm, and did not hear the approaching train.

Sudden Death at Everson, Pa.

EVERSON, PA., October 6.—A man named John Dunlap, a puddler in the rolling mill, while sitting upon a barrel at the Scotdale depot, at eight o'clock yesterday morning, fell over on the ground and immediately expired. A Coroner's jury rendered a verdict to the effect that he died of rupture of the heart. He leaves a wife and two children. The remains were sent to Connellsville.

Vessels Ashore on Lake Huron.

DETROIT, October 6.—A very severe northeast gale prevailed on Lake Huron to-day. The only disasters yet reported are the tug Mary Battle and barge Shiawassee ashore at Ansable, both loaded with lumber.

NEWS SUMMARY.

BY TELEGRAPH.

Probabilities for To-day.—For the Ohio Valley, Tennessee, the Gulf and South Atlantic States, rising barometer, northwest to Southwest wind, cool or partly cloudy weather, and occasional rain. For the lower lakes, rising barometer, northwest winds, cooler, cloudy weather and rain, clearing during the day.

The River Improvement Convention met at Rome, Georgia, yesterday. B. C. Yancey was chosen permanent President.

The Illinois Supreme Court has decided that the last election by which the charter of 1872 was decided to be the fixed charter of Chicago, was illegal.

The epizootic is spreading in Montreal, and all the large stables in the city are affected. The disease is also prevalent in Toronto, Hamilton and London.

The people of Omaha decided, at a meeting yesterday, that Nebraska must take her full quota of Centennial stock, and showed their faith by taking the full quota of the city.

A disease, the character of which has not yet been ascertained, prevails among the hogs in Franklin county, Ohio. About one thousand have died in Hamilton township in one month.

The street railways and bus lines in Chicago have taken off a considerable number of their horses, in order to stay the progress of the epizootic, which has appeared there in a mild form and has attacked most of the horses in use.

THE PORK PACKERS.

Closing Proceedings of the National Convention.

ST. LOUIS, October 6.—The Pork Packers' Convention permanently organized today by the election of the following officers: President, S. L. McDonald, Kentucky; Secretary, D. Frank Howard, Chicago; Assistant Secretary, Charles B. Murray, and one Vice President from each State represented. The Committee on Business reported the following resolution:

Resolved, That this convention recommend that the Secretary of this association make application to the Secretary of the Treasury of the United States for weekly reports of exports and imports of provisions in detail from the principal ports of this country, and give aggregate returns promptly to the public. The same Committee made a report of which the following is a synopsis: That this association be known as the Pork Packer's Association of the United States, and shall be composed exclusively of persons engaged in the packing and curing of the hog product. The officers of the association shall consist of a President, one Vice President from each State, Secretary and Assistant Secretary, the former to be also Treasurer. The President and Vice Presidents shall constitute a Board of Managers, who shall control the business of the association; seven of its board to constitute a quorum. The following resolutions were also presented by the Business Committee, which were adopted, as well as their report on organization:

Resolved, That the Convention indorse the rules and customs now in force throughout the United States governing the provision business.

Resolved, That we urge on packers and all interested in the trade the necessity of giving full and correct statistical information to the press, so that monthly tabular statements can be made up of packing and stock on hand.

A resolution was also adopted that this association recommends the formation of auxiliary associations in the different States, to carry out the provisions constituting this association, and that said auxiliary associations report from time to time as requested by the Board of Managers.

After some other business of interest only to the trade, resolutions of thanks were adopted and the Convention adjourned *sine die*. Members of the Convention visited the Merchants' Exchange at noon, and were generally welcomed, and this afternoon took a carriage ride in the suburbs, taking in all places of note and attraction around the city.

NEW YORK.

NEW YORK, October 6, 1875.

DECISIONS IN TWEED CASE.

The Supreme Court general term rendered a decision this morning, Judges Davis and Brady giving opinions, confirming Judge Barret's order in Chambers denying a motion to vacate the order of arrest on the $6,000,000 suit against Wm. M. Tweed, or reduce the $3,000,000 bail. Another decision was given through Judge Davis, reversing Judge Donohue's order from which the people appealed, requiring a bill of particulars as to the fraudulent bills and vouchers complained of.

MEETING OF TRUSTEES OF PEABODY FUND.

The annual meeting of the Board of Trustees of the Peabody Educational Fund was begun to-day. R. C. Winthrop, of Boston, occupied the chair. The session was strictly private. The Trustees present were Chief Justice Waite, Wm. M. Evarts, ex-Governor Aiken, of South Carolina, Bishop Whipple, of Minnesota, General Richard Taylor, of Louisiana, Surgeon General Barnes, S. Wetmore, of New York, Hon. S. Watkins, Tennessee, and Rev. Dr. Leam, of Virginia. The members of the Board of Trustees absent were President Grant, Hon. Hamilton Fisk, Alexander Stewart, of Virginia, and George W. Higgs, of Washington. A committee composed of Hon. Wm. M. Evarts and Alexander Stuart were appointed to report suitable resolutions on the death of ex-Governor Graham, of North Carolina, one of the trustees. Rev. Dr. Sears, General Agent, then read his report, which will be acted upon by the Board to-morrow. At the conclusion of the reading of the report, the meeting adjourned until to-morrow. Secretary Fish is expected to arrive in the morning.

RAPID TRANSIT.

The report of the Rapid Transit Commission of New York, was given to the press this afternoon. From more than one hundred plans the commissioner's have selected and adopted three, either of which may be constructed singly or by combining the three. They are a single track road on each side of the streets over the sidewalks, elevated on a single line of columns, or a double track over the center of the streets by posts placed in the road way just spanning the horse car track, or supported on gothic arches spanning the streets from curb to curb, according to plans presented by Richard P. Morgan, Jr., of Bloomington, Illinois.

RAILWAY MATTERS.

New Directory for the Toledo, Wabash and Western.

TOLEDO, October 6.—The following named gentlemen were elected directors of the Toledo, Wabash and Western Railway Company, at the meeting of the stockholders to-day: John W. Ellis, Wm. B. Isham, Ossian D. Ashley, Selon Humphreys, of New York; C. F. Curtis, of Toledo. It was resolved that the directors of this corporation be requested to procure, if practicable, such a delay or postponement of foreclosure proceedings under the gold bond mortgage as may enable the stockholders to consult with the mortgage bondholder for the purpose of devising means to extricate this company from its embarrassment.

Annual Meeting of Louisville and Nashville Railroad.

LOUISVILLE, October 6.—The annual meeting of stockholders of the Louisville and Nashville Railroad was held to-day. T. J. Martin and Albert Fink, respectively, President and General Superintendent, resigned their offices. The following is a brief summary of the reports of these officers for 1874-75: Total cost of road to June 30, 1875, $23,798,970; total mortgage in all roads, $15,857,810; gross earnings, $4,308,952; operating expenses, $2,792,554; net earnings, $1,516,398; length of roads of main stem, 159 miles; Bardstown branch, 17 miles; Knoxville branch, 110 miles; Richmond branch, 36 miles; Clarksville division, 128 miles; Memphis division, 136 miles; total road owned by the company, 604 miles; leased roads, Glasgow branch, 10 miles; Nashville and Decatur, 122 miles; total road operated, 737 miles. The Louisville road also owns a majority of the stock of the South and North Alabama Railroad. B. F. Guthrie, H. C. Murrell, of Louisville, and R. J. Potter, of Bowling Green, were elected directors, and they appointed the following officers of the company for the ensuing year: Hon. E. B. Sandiford, President, P. Victor Newcomb, Vice President, both of Louisville; W. A. Raney, Wm. Quarrier, of Louisville, Secretaries. No Superintendent was elected.

TELEGRAPHIC PERSONALS.

Mr. Haskin, night editor of the Toronto *Mail*, was drowned on Tuesday.

W. S. Humphrey, ex-Auditor General of Michigan, has been appointed State Prison Agent, in place of John Morris, resigned.

Jefferson Davis left Memphis at noon yesterday for Hopkinsville, Kentucky, his native place, where he delivers an address at the Agricultural fair to-morrow.

General Lagrange, Superintendent of the mint at San Francisco, has tendered his resignation, owing to the connection of his name with the appointment of Pinney, the defaulting naval paymaster's clerk.

The court of inquiry at Mare Island, San Francisco, in the Pinney case is proceeding with closed doors. Paymaster Spaulding promises revelations that will make a fluttering among the politicians as regards influences when he retained Pinney in his position, if the inquiry is pressed too hard upon him.

Catholic Total Abstinence Union.

CINCINNATI, October 6.—The Catholic Total Abstenance Union of America assembled here to-day with about two hundred delegates present, representing every State in the Union. Addresses were delivered by Archbishop Purcell and Bishop Toebb, of Covington. The following committees were appointed: On constitutional amendments, on address to the people of America and Ireland, on address to the Pope, and on immigration. The reports of presidents of subordinate unions were then received, and exhibit a marked increase in the number of new societies and additional members. A telegram was ordered sent to the Holy Father at Rome, expressing sympathy with him in his troubles, and begging his blessing upon the convention. The Committee on Credentials reported that the number of societies in the Union was 536.

Damages by the Storm at Galveston Repaired.

GALVESTON, October 6.—The bridge over the bay is repaired, and trains are running regularly. In the city scarcely any traces remain of the effects of the storm. Business is very active in all branches of trade. Contributions are coming in from all sections for the sufferers, and are being forwarded to points where most needed. Galveston harbor is greatly benefited by the storm, it having washed and deepened the channel over the bars several feet, and there is now from fourteen to fifteen feet of water on the bar. The Liverpool steamers come up to the wharf without lightening. The work on the Santa Fe Railroad is being pushed rapidly forward.

POLITICAL.

Massachusetts.

KEEPING UP THE FARCE.

BOSTON, October 6.—This morning a meeting of the Prohibition party was held in Tremont Temple. The body of the hall was well filled, quite a number of ladies being present. Rev. D. C. Eddy, of Boston, was President. The Committee on Resolutions reported three, the most important of which was, in effect:

Resolved, That the safety of the Republic and of the cause of prohibition depend upon making the party a unit for the right, which can best be secured by defeating Alexander H. Rice.

The committee appointed to report a candidate for Governor presented the name of John J. Baker, of Beverly. The report was accepted and the nomination made unanimous. The committee were not instructed to make any other nomination, and were discharged. It is not probable that any other nomination will be made.

ANOTHER LITTLE SIDESHOW.

WORCESTER, MASS., October 6.—About thirty delegates are holding a Labor Reform Convention in this city, E. M. Chamberlain, of Boston, presiding. Resolutions were reported from the committee in favor of a concentration of efforts for a reduction of the hours of labor, denouncing the Fall River manufacturers' advice to the working men to keep away from all present political parties, favoring the substitution of 3:65 bonds for five-twenties, and making of greenbacks a legal tender payable for duties and all debts, and denouncing the National Bank system as one of the greatest swindles on the American people.

Wendell Phillips was nominated for Governor, Wm. F. Bartlett for Lieutenant Governor, Israel W. Andrews for Secretary of State, S. B. Coffin for Treasurer, John E. Fitzgerald for Auditor, H. B. McLaughlin for Attorney General. Resolutions were adopted declaring that the power and strength of the labor movement be concentrated upon legislation necessary to reduce the hours of labor, a system of factory inspection, the introduction of fire escapes and protection from dangerous machinery, condemning the action of manufacturers of Fall River, declaring in favor of the greenback currency, the retirement of national bank currency and declaring the banking system a fraud. The convention was in session six hours, and the proceedings were at times marked by disorder which caused some of the members to refuse to act with the majority.

NOMINATION FOR CONGRESS.

NEW BEDFORD, MASS., October 6.—The First Congressional district Republican Convention to-day nominated Hon. Wm. N. Craps, of New Bedford, for Congress, in place of the late Mr. Buffington.

WENDELL PHILLIPS' REPLY TO CARL SCHURZ ON THE CURRENCY ISSUE.

NEW YORK, October 6.—The *Herald* publishes a letter of Wendell Phillips to the Legal Tender club of this city. It is an aggressive answer to the recent speech of Mr. Schurz, and advocates the necessity for more greenbacks and less checks, assails the aristocracy of money manufacture, and answers the argument of Mr. Schurz relative to irredeemable currency by reference to the recent financial history of France and Germany.

CONNECTICUT'S VOTE ON THE CONSTITUTIONAL AMENDMENTS.

HARTFORD, CONN., October 6.—The vote in this State on Monday on the constitutional amendment changing the time of the State election from spring to fall, and making the Governor's term of office two years, was 38,676 yeas and 2,501 nays, with eight towns to hear from. The vote on the amendment giving the Legislature power to restore forfeited rights to an elector was 29,580 yeas to 10,133 nays.

South Carolina.

A REPUBLICAN VICTORY IN SOUTH CAROLINA.

CHARLESTON, S. C., October 6.—The municipal election to-day passed off without serious disturbance. Full returns have not yet been received, but it is conceded that the coalition of Republicans and Conservatives have re-elected Mayor Cunningham and their entire ticket by at least 2,000 majority.

CRIMINAL RECORD.

Was It a Murder?

WORCESTER, MASS., October 6.—Hon. L. W. Pond, one of the heaviest manufacturers of machinist's tools in this city, has disappeared under very mysterious circumstances. Last Friday he went to Boston on business intending to return the same night. While in Boston he collected about $2,500, but, instead of returning here, telegraphed to his son that he was going to New York on business. A portion of his clothes were found in his state room, but the man, money and valuables are missing.

Beaten and Kicked to Death by Her Husband.

TOLEDO, October 6.—A Frenchman, named Julius Pointeny, residing at Swan creek, Monroe county, Michigan, kicked and beat his wife to death on Monday night, and made good his escape. It is supposed that he has fled to Canada.

Incendiarism and Attempted Assassination in Schuylkill County, Pa.

POTTSVILLE, PA., October 6.—Last night the firemen at Graneber & Kompel's colliery, at Locust Gap, discovered that the breaker had been set on fire, and on attempting to put it out, was fired upon by incendiaries. Before assistance could arrive the fire had gained such headway that it was found impossible to save the breaker, which was totally consumed with its contents. Loss $100,000.

Murder in the Second Degree.

CINCINNATI, October 6.—In the trial of Rufer, at Hamilton, for the murder of Schilling, several months ago, what is known as the Tanyard murder, the jury to-day brought in a verdict of murder in the second degree.

Jury Out in the Siney Case

CLEARFIELD, PA., October 6.—The Jury in the Siney case retired at 10 P. M. The first vote stood eight for acquittal and four for conviction.

Marriage of Postmaster General Jewell's Daughter.

HARTFORD, CONN., October 6.—Miss Josephine M. Jewell, daughter of Postmaster Jewell, was married this evening to Arthur M. Dodge, of New York. The wedding was a very brilliant affair, and many distinguished guests were present, including Secretary Bristow, Attorney General Pierrepont, Attorney General Phelps, Hon. John Hay, of Philadelphia, Henry Watterson, of the Louisville *Courier-Journal*, Samuel Bowles, of the Springfield *Republican*, Governor Ingersoll, Hon. L. W. Kellogg, General J. R. Hawley, Judges Carpenter and Pardee, and many others.

Fine Printing.

The extreme modesty of our young friend, Charles A. Scott, No. 6 Sixth street, formerly of Cincinnati, has kept him from advising the public that he is doing very fine printing at low prices. Cards, bill heads, letter heads, pamphlets, circulars, &c, are all turned out in good style.

WE call the attention of our readers to the card of Allen Kirkpatrick & Co. This house needs no commendation at our hands. For promptness and responsibility they are not excelled by any dealers in our city; and having long experience, are prepared to furnish their customers goods advantageously.

THE Ohio Democrats will have to get 65,000 votes out of the Republican majority of 1872 to elect Fungus WILLIAM, and we don't believe they are going to do it.

A MASSACHUSETTS paper calls upon the Republicans of that State to "fall in, stop growling, and close up." Pretty good advise that, to Republicans everywhere.

MANSFIELD, OHIO, has a GUIBORD case, now. The Roman Catholic priest will not allow the remains of JOSEPH KELAN, the editor of the German paper at that place, to be buried in consecrated ground, because he "wasn't a good Catholic."

THE New York *Graphic* is of opinion that when the end of all things earthly has come, and the judgment seals are broken, the editor of the Springfield, Massachusetts, *Republican*, will rise to remark, "Unless we have CHARLES FRANCIS ADAMS there can be no general judgment."

A NEW YORK paper says of that infamous swindle in the Alexandria lottery that it is no worse than in every lottery drawn south of Mason and Dixon's line. This is true: the lottery curse in the South is the next curse to slavery, and the Louisville *Courier-Journal* helped to set the foul fiend in motion.

NOTING the defeat of Mrs. MINOR, the Missouri woman who claimed the right to vote, and whose case was brought before the Supreme Court, which decided that neither she nor any other of her sex will be allowed to vote under the Fourteenth Amendment, the New York *Mail* thinks the case mihgt have been settled much easier by her opponents claiming that she was a Minor, and herefore, not entitled to the elective franchise.

EVERY corrupt scoundrel in New York will soon be raising the cry of "reform." Here is a fellow named HAMMOND, running for Senator on the TILDEN ticket who, while Assistant Attorney General, took from a certain Life Insurance Company between $4,000 and $5,000 for fees, &c., while the company was undergoing investigation by the State authorities as to its soundness! HAMMOND now has TILDEN's support, and TILDEN is a great reformer.

THE Harrisburg correspondent of the Philadelphia *Press* writes a very encouraging letter of the political prospects in the State, and in the course of his review of the reports from the several counties says: "In no Republican county in the State, except in Allegheny, has there been or is there the least organic trouble with the party."

Why except Allegheny? There is no "organic" trouble here, nor trouble of any other kind.

THE Ohio Republicans are already driving in the Democratic outposts. Last year the Democrats of the town of Findlay, in that State, elected their Mayor by eighty-nine majority, and their Clerk over a very popular Republican. A special election was held on Monday for Clerk, and the Republicans elected their candidate by 137 majority, on a very full vote. This skirmish is hopefully indicative of the manner in which the main battle of next Tuesday will go.

ONE of the active men at the meeting of those members of the Union League, in Philadelphia, who are opposed to the Republican City ticket because, as they say, it represents a corrupt element, was an enterprising gentleman who was once entrusted by a friend with money to pay his taxes. This distinguished enemy of corruption appropriated the money to his own use and gave his friend a forged tax receipt. He was compelled, afterwards, by the Tax Receiver, to refund the money thus bagged by him, and he has ever since had a very keen sense of the corruptness of Philadelphia office-holders. He wants a tax receiver chosen who will not be so almighty particular, you know.

TOM COLLINS' man, of the Philadelphia *Times*, gets over the allegation that PERSHING voted in Johnstown against the Constitutional amendment giving soldiers the right to vote by saying that if HARTRANFT had been at home he would have voted the same way. Not quite. HARTRANFT was a soldier, and no soldier would have voted against his own right to a vote. Besides that, HARTRANFT voted the Republican ticket at the first election held by the soldiers after they got the right of suffrage, in 1864, and like all good soldiers, voted the way he shot. PERSHING reserved all his shots so as to make them tell most effectively for the rebels, and he voted the way *he* shot, but he neither voted nor shot on the Union side.

IT IS usual, in stating the enormous city debt of New York to give the total, *less* the amount in the sinking fund, which is all right; but when the papers undertake to state the city debt of Philadelphia or Pittsburgh they invariably give the gross total, which *includes* the amount in the sinking fund. There is no fairness in this, and New York is not entitled to a deduction which is refused in giving the statistics of other cities. The total debt of New York city is about $160,000,000, but the amount in the sinking fund reduces this to $131,000,000. The total debt of Philadelphia is about $65,000,000, but the sinking fund holds securities which reduce it to $50,000,000. The total debt of Pittsburgh is about $13,000,000, but the sinking fund and the liens for the improvement of streets under the Penn avenue act, reduce the total amount to about $9,000,000. The newspapers in giving the debts of these cities uniformly give the *inside* figures for New York and the *outside* ones for Philadelphia and Pittsburgh.

Another trick, in giving the statistics of the debt of Pittsburgh is to state the population at 86,000, which was the population of the old city in 1870. The South Side has since been added, bringing up the population to 120,000, and the amount of debt, *per capita*, should be calculated upon the latter figures, not the former.

Upon this, the only proper basis of figuring, the debt of Democratic New York is about $150 *per capita*, while that of Philadelphia and Pittsburgh is only $75, or half that of New York. The *per capita* rate of Brooklyn, another intensely Democratic city, is as high as that of New York, if not higher.

APART from the serious troubles in Western Turkey there are many other symptoms of political disturbance abroad, strongly suggestive of events which preceded recent European wars. Almost every week brings tidings of some fresh developments of continental armaments. New levies, new ships, new guns are being raised, launched, and made with the greatest rapidity. Meanwhile diplomatists and sovereigns are holding interviews which recall those of Plombieres and Biarritz. The French Foreign Minister, the Duc Decazes, recently held a conference with the Russian Foreign Minister, Prince GORTSCHAKOFF, in Switzerland, and it is easy to guess that the Franco-Russian alliance, which is so favorite and idea with Parisians, has been under discussion. The Emperor of Germany is now on a visit to Italy for the purpose of holding a conference with VICTOR EMMANUEL. It will be remembered that a secret alliance between these two sovereigns preceded the outbreak of hostilities in 1866. At the same time, it is difficult to understand how any inducement can be offered which would tempt VICTOR EMMANUEL into a new campaign. Italy was not "made" in 1866. She still wanted Venetia and Rome. Both of these she has now, and there is nothing more for her to gain to which she is reasonably entitled. It is barely possible that even BISMARCK would offer to secure to Italy the Austrian provinces of the Adriatic, or that even the possession of the Trieste would tempt the Italian Government into a new war, which might involve the loss of much that has been already gained. The unification of Italy is the one factor which makes strongly for the maintenance of European peace, by removing one incentive to war. At the same time, the success of the principle of nationalities in the Peninsula is an encouragement to the Slavonic subjects of the Porte. Italian unity is a powerful argument in favor of Turkish disintegration.

RETURNING TO THE OLD SYSTEM OF BANKING.

If the Democratic platform of this State means anything it means that the National Bank system shall be abandoned and that we shall return to the old system of banks under State control.

A correspondent, writing from Elizabeth, in this county, very truly says that if the young men of this day, and the men who have become citizens since 1863, could fully comprehend the annoyances, worries and losses that befel the people under the old State bank system they would not, for one moment, tolerate the idea of a return to it. A very large proportion of the voters of to-day consists of men who have been naturalized, and young men who have come of age, since 1863, and they can know nothing from personal experience, of the actual facts in the case. They will, therefore, excuse one who has passed through three periods of commercial revulsion to recur to the situation, financially, before the Government furnished us a national currency which is of uniform value throughout the length and breadth of the land.

Prior to 1860, the currency in circulation was furnished by the banks of all the States, and its value depended upon the character of the banks issuing it, as well as upon the distance from home at which it was circulated. It was the aim of all the banks to get their paper into circulation as far away from home as possible, to prevent its presentation for redemption; and the currency that furnished the staple of daily transactions in any business community consisted of the paper of distant banks, and the paper that was of the lowest repute crowded out that which was nearest par. The good paper was hoarded for special use; but the questionable paper was kept afloat. It was an axiom of finance, then, that doubtful bank paper was sure to displace that which was better.

In this city at that time, Missouri bank notes constituted the bulk of what was known as "currency," as distinguishable from bankable or par funds. All business at stores was carried on with "currency," which had to be sold to the brokers at various rates of discount, and all business at the banks had to be done with par funds. Mixed in with Missouri money was to be found a small proportion of Ohio and Kentucky notes, but as the rate of discount on these was less than on the Missouri issues, they were generally laid aside for special use.

The difference in value between "currency" and "par" funds was a severe tax upon every man in business, to say nothing of the trouble in discriminating between the notes of several thousand banks, issued in different States, each note varying from every other in appearance. The Pittsburgh *Commercial Journal* of Feburary 7, 1860, quotes Eastern exchange at 3@4 per cent. premium for "currency," and ¼@½ for "par" funds. That was the rate of difference between the two, and that was the loss sustained upon every man who was compelled to take this depreciated currency.

Our correspondent very correctly says that if any one will take up Bicknell's Bank Note Reporter for 1857, 1858, 1859 and 1860, the four years of the last Democratic National administration, and compile from it a methodical statement showing the discount charge on the currency at that time by banks and bankers, it will be found that it cost the people during that period, more to make their money par than it does now to pay the interest on the bonds held by the national banks. This is a fact beyond question, and it is worthy of the serious attention of all who are tempted to return to the leeks and the flesh-pots of Egypt.

We have got away, thank heaven, from that mercantile slavery, and no one who passed through the experience of that system will entertain the idea of a return to it, such as the Democrats of Pennsylvania propose. It was a burdensome, expensive, troublesome, perilous system. Every man in business was in terror, from day to day, lest some bank should break, and he should be found with some of its paper in his hands. We have a sound, safe and uniform currency, now; and no sensible man will want to return to the times when Gallipolis and Missouri money, and wildcat bank notes formed the staple of the currency.

OHIO.

A well-informed and not over-sanguine friend, who has just returned from Ohio, brings us the following encouraging reports. He says:

"I find matters most encouraging. I went down to the people who know the voters to learn the situation. *They are all confident.* Counties which last year were against us will this year be for us. While an occasional individual, suffering from business depression, has been led off, the great body of the business public are thoroughly aroused to the importance of Republican success. I attended a Methodist Conference on Sunday last, and the minister could not resist hinting at the school question, as agitated politically. A hearty 'Amen!' burst from the audience, which indicates the current of public opinion everywhere."

THE Philadelphia *North American's* official table of the domestic exports from that port to foreign ports during the month of September shows an increase of $755,346 over the corresponding month last year, the total being $3,206,971, of which $2,334,736 was in foreign vessels and $872,235 in American, $1,106,225 being sent to England, $709,232 to Belgium, $526,347 to Ireland, $264,891 to Germany, $116,631 to the British West Indies, $98,353 to Italy, $70,522 to the Netherlands, $94,275 to France, $66,112 to Austria, $58,121 to Cuba and $34,642 to Venezuela. The number of vessels in which these exports were shipped was 111, tonnage 71,023, of which 26 were American, tonnage 17,898; 41 British, tonnage 27,122; 16 Swedish, tonnage 7,856; 12 German, tonnage 7,112. Of the commodities there were 9,200,712 gallons refined petroleum, 1,371,935 gallons crude petroleum, 530,087 gallons naphtha, 1,464,888 pounds oilcake, 696,027 pounds leaf tobacco, 381,646 pounds tallow, 65,260 gallons molasses, 45,347 hides, 370,054 pounds leather, 540,800 pounds cotton, 401,079 bushels wheat, 14,020 barrels flour, 348,110 bushels corn, provisions $432,153, and a miscellaneous variety of other goods. The trade for the month makes a good exhibit and is fully up to the usual standard for this port.

Baker Turns Up and Makes a Statement.

It was stated by the papers yesterday, in publishing the Charley Ross letters which have lately been made public, that the man who is known by the name of Baker had ran off, and that this added to the belief that the whole story as told was a falsehood. It seems, however, that there has been a mistake, as Mr. Baker was found in this city to-day. He gives the following account of himself:

When I went to Darlington I let Mr. Ross know that I expected to obtain a situation there at my trade of carpentering. When I arrived there I was unsuccessful, and went to my father's house, at Eagle Station, on the Pennsylvania Railroad. I stayed there three days, and came to Philadelphia on the 23d of September, and took board at No. 1619 Market street, and obtained work here. When I arrived in the city I thought Mr. Ross had dropped the subject, which is the reason for my not letting him know of my return. As soon, however, as I saw the story in the papers I went to him and reported my return. In regard to the report of my being a fugitive from justice in South Carolina, I will say that the statement is utterly false. The fact that I met the man named Nelse Boothe is the truth, and Mr. Ross has acted on the advice I gave him, and telegraphed to London to the police authorities to investigate the matter.—*Philadelphia Bulletin.*

NEW volume of *Littell's Living Age.* Number 1,634 of *The Living Age*, for the week ending October 2, begins a new volume, and is printed on new and handsome type. The contents of this number are Ocean Circulation—researches in the "Tuscarora" and "Challenger," by Dr. W. B. Carpenter, from the *Contemporary Review;* Richard Baxter, by Dean Stanley, *Macmillan's Magazine;* The Planets put in Leverrier's Balance, *Cornhill;* The Clockmakers of the Schwarzwald, *Spectator;* Country Towns, *Saturday Review;* Character Connoisseurs, *Saturday Review;* Amber, *Cope's Tobacco Plant;* with installments of "The Dilemma," a powerful story from *Blackwood*, and "*Her Dearest Foe,*" by the author of "Wooing O't," and the usual choice poetry and miscellany. With fifty-two numbers of sixty-four large pages each, (aggregating over 3,000 pages a year) the subscription price ($8) is low; or still better, for $10 50 any one of the American $4 monthlies or weeklies is sent with *The Living Age* for a year, *both postpaid.* Littell & Gay, Boston, publishers.

HYMN OF PITTSBURGH.

My father was mighty Vulcan,
I am Smith of the land and sea;
The cunning spirit of Tubal Cain
Came with my marrow to me.
I think great thoughts strong-winged with steel,
I coin vast iron acts:
And weld the impalpable dreams of Seers
Into utile lyric facts.

I am monarch of all the forges,
I have solved the riddle of fire:
The Amen of Nature to need of Man
Echoes at my desire.
I search with the subtile soul of flame
The heart of the rocky earth,
And out from my anvils the prophecies
Of the miracle-years blaze forth.

I am swart with the soot of my chimneys,
I drip with the sweats of toil:
I quell and scepter the savage wastes,
And charm the curse from the soil.
I fling the bridges across the gulfs
That hold us from the To Be,
And build the roads for the bannered march
Of crowned Humanity.

PERSONAL.

Colonel Baker's disgraced relatives in London paid a photographer £1,000 to prevent the sale of the unfortunate soldier's picture on the streets.

It is feared that the notorious North Carolina outlaw, George Applewhite, a member of the now extinct Lowry gang, will have to be released under an amnesty law passed when it was supposed he was dead, and from which Lowry was, but he was not excepted.

Old Jimmy Kannon, the scout who tried to lead a party of Illinoisans across the plains to Arizona, and who proved such a worthless guide, was shot to death a few weeks since, by a scout named Baker, on Snake river, Kansas. A number of the members of the expedition which he led out, are on their return in indigent circumstances.

The Topeka, Kansas, *Blade*, thus solves an important question: "Mrs. Starrett, of Lawrence, asks: 'What shall we do with our daughters?' And a farmer down in the country asks: 'What shall we do with our corn?' These are important and all-absorbing questions, which address themselves forcibly to thinking people. We beg to suggest a solution. Let us feed our corn to our daughters."

A piece of brass was found on a man named Jeremiah Doyle, lately arrested for drunkenness at Worcester, Mass., which proved to be a souvenir of ten years he has served in prison for killing a man, and which he prized very highly. He had whittled out the model in wood, and the brass medal had been engraved with the date of his incarceration and his discharge, eight months having been deducted for good behavior.

Moncure D. Conway has been passing the first few weeks of his stay in this country in the house of his father, who is a banker in Fredericksburg, Va. The sharp differences arising from his radical anti-slavery views led to an unhappy separation between Mr. Conway and his friends and relatives in Virginia before the war. All that has passed away with the war, and they now welcome him as a Virginian with true Virginia cordiality.

In the Lorain county, Ohio, Democratic Convention, the other day there came near being a split on the financial issue. Wm. Patterson, of Carlisle, declared that he could not support the Ohio Democratic platform with its inflation heresy, or vote for Governor Allen, but was nominated for Auditor in spite of his protest. Other members of the Convention declared themselves out-and-out hard money men, but would vote for Allen because he was labeled Democrat, even if he were ten times the inflationist that he is. "The leaven is working" of public honor and fidelity to an honest currency.

NOT A HANDSOME PICTURE.

Victor E. Piollet as Painted by David Wilmot.

[From the Philadelphia Press, 5.]

When David Wilmot offered his famous proviso, during the Mexican war, to prevent any territory which might be acquired by that contest from being devoted to slavery, it aroused the fury of the South and startled the Democratic party of the North. The boldness of such a proposition from a Northern Democrat took the South by surprise. It was thought in the slave States that no Democrat would dare to assume the *role* of dictating how the territory which that war was precipitated to acquire should be devoted, when part of the original plan in encouraging Texas to set up her independence was to secure the extension of our Southern borders, and in that way add to the slave States. This was as well understood in the South at the period as it was known that rebellion would follow the election of Abraham Lincoln. Hence, when Mr. Wilmot offered his famous proviso, the South was startled—it was aroused to the sudden consciousness that the Democratic party of the North contained an element which it could not control in the future. Mr. Wilmot had no idea of going outside of his party when he offered his proviso. He stipulated merely for what was right, and felt that unless such a restraint was put on the slaveholder there would be no certainty to the permanence of our Southern boundary as long as a foot of land could be devoted to the uses of African slavery; and that without such a restriction the slaveholders would always be ready to plunge the country into war purposely to acquire territory.

When David Wilmot returned to Northern Pennsylvania, after he had offered his *proviso*, he found that the slave power had followed him, and that the Democratic leaders of his Congressional district had received their orders from their masters of the South to destroy him. One of the men who first began to hound Mr. Wilmot was Victor E. Piollet, who, without any cause, opened the flood-gates of vituperation and detraction to malign the man who, only a few short months before, had saved him from the disgrace of rejection when nominated for a postmastership before the United States Senate. The people of Northern Pennsylvania will never forget the estimate which David Wilmot put upon the character of Victor E. Piollet. The writer of this article well remembers a meeting which these men had at Towanda, in 1843, when Wilmot came home to meet his constituents. The great Free-soiler and the dough-face met face to face at an immense meeting at the Court House, when Wilmot, with that courage and candor which always distinguished him, arraigned Piollet before his friends and neighbors, convicting him of positive falsehood, forcing him to confess to personal treachery, and overwhelming him with disgrace, and he barely escaped from the Towanda Court House without being subjected to the indignant violence of the people whom Wilmot had aroused by his eloquence and manly defense of freedom. While David Wilmot lived, Victor E. Piollet never recovered from the effects of his exposure. The Free-soil movement increased, expanded, and at length assumed the magnificent proportions of the Republican party. Piollet remained a dough-faced Democrat. No man in the North was a more obsequious tool of the slave power; and when the Fugitive Slave law was passed he hailed it as a measure of constitutional right. Mr. Wilmot understood the man thoroughly, and never trusted him. When he consented to his being nominated for the Legislature it was with the warning that he would disgrace his county, and Wilmot was right, as the famous Piollet bribery case proved.

This brief mention of the past history of Mr. Piollet is not a personality, it is a leaf from the political history of the State which may well be studied this time. If the illustrious Free-soiler, Wilmot, were living he would paint Piollet as he has often portrayed him, as unfit to be trusted personally, as shallow in his political convictions, and servile in his partisan following. Mr. Piollet's friends have put him forward for a responsible office, and they are bound now to take him with all the odium of his past history and all the uncertainty of his future course. It is our duty to see that the people are not deceived in this man. The United States Senate hesitated to place this man in charge of the moneys of the army, and it may be well for the people of Pennsylvania to hesitate long and persistenly before they place the money of the State in his charge. History is a good teacher. In this case her admonitions are well worthy of being heeded.

WAGES IN 1823.

A Curious Letter Found in the Pulpit of St Andrew's Church, Philadelphia.

[From the Philadelphia Inquirer.]

When the old pulpit in St. Andrew's Church, on South Eighth street, was demolished a few days ago, to give place to a more modern and handsome one, the tools of the workmen revealed an old letter, yellow stained by time, that had been deposited there by the men who had constructed the pulpit a half a century ago. It is written in contempt of all rules of orthography, and will be of interest to the mechanics of the present day. It reads as follows:

Saint Andrew's Church was commenced August, the year of our lord one thousand Eight and twenty-two and was consecrated The year of our lord one thousand eight and twenty-three. This church was Bilt for Mr. Bedell which was sead to Bee a very smart man. John Haviland Was arch Etck James Clark and Benman Rubing master house Carpenters when this church was finist there was a Bout thirty house Carpenters a working at it for one dollar a day and Bricklars was working for one dollar 37½ cents a day Plasters one dollar 25 cts a day Stone Cutters working for one dollar a day and Painters they are working for one dollar a day and we are all glad to git that much, a day other mechanists scawrdingly no times are so hard that mechanists them that is marred can not aford to live cummfeble Without a goad deal of trouble and a Singley man cannot aford to git marred.

Still we have good markts and cheap and plenty to eight and rents and as many puthy guaries and as cheary ones as the Countrey cay produce John Burton and Charles R. Gaskill. We was work on the pulpitt in this church and we tuck the liberty to Right a few lines and put them under the Bibel Shelif to let you now how hard times is fore us to gitt along Now I hope Wen these lines found and open times will Be better that without they are at Present and that Pepel may all Become of one mind and worship Lord in Sincerity and truth

Rought and Sined by
JOHN BURTON
CAARLES R. GASKILL.

May 11, 1823.

AMERICAN breadstuffs are at length fully recognized in England as in command of the field there. Mr. Caird, an eminent English economist, says that American wheat is king of the world, and the London *Times* amplifies the remark by saying that "When people talk of our putting our fortunes, our lives and our national existence into the hands of foreigners, they may not be always aware that it is the citizens of the United States and the Canadians whom we have made the masters of our destiny."

American breadstuffs have undoubtedly become of vast importance to England, and the ability of the Republic to produce grain to an unlimited extent is beyond all dispute. But it is a little singular that with all we send to England of our products, we are still her debtor in the trade account, and the fact shows that, magnificent as may be the volume of these raw products, the money value in the account current is not a very lucrative one. And although England relies so largely on our breadstuffs, she takes good care to gather in wheat from Russia, Germany, France, Egypt, and wherever else it can be had, and by this means the market value of American wheat is kept down. Hence it is a question whether these fine words amount to much to us, and whether we cannot do better by putting our raw products into more advanced shapes for export or consumption, since the net result of all our breadstuffs shipments is altogether insufficient in the current account.—*Philadelphia North American.*

The Maysville, Ky., *Eagle*, a Democratic sheet, says: It was disgraceful to the Democrats of Ohio that they nominated for the second place on their State ticket so bad a man as Sam Cary. It will be disgraceful to every citizen of the State if the fellow shall be elected. For one, we earnestly hope he may be defeated. He will be remembered as the same rascal who came to Maysville to speak for Sam McKee, in 1865, and then went home and lied like a dog, saying that he was denied the liberty of free speech in Bracken county, and had been compelled to leave for fear of violence. He will tell any lie that will suit his purpose; and resort to any demagoguery, no matter how mischievous, that will help to accomplish his selfish ends. Better elect any decent Republican than such a man, who only acts with the Democrats because he hopes to gain office by their votes.

Malaria-Breeding Floods.

The recent tremendous freshets which have flooded some of the most fertile low lands of the United States have not only caused widespread ruin and disaster, but have, as might have been expected, been followed by an unprecedented outcrop of fever and ague, bilious remittents and other diseases of a malarial type. The sun's rays, acting upon the saturated vegetation and isolated pools left by the retiring waters, have exhaled a far-reaching miasma, which is pregnant with disease. The most reliable safeguard against it is found to be Hostetter's Stomach Bitters, the present demand for which, more particularly in the West and Southwest, where the floods have been most severe, exceeds any which has existed in the past, popular as the great national remedy and preventive of malaria has always been. Never has it been put to such a crucial test, or its claims more conspicuously vindicated.

THE GREAT
ENGLISH REMEDY!
The Cordial Balm of Syricum and Tonic Pills.
NERVOUS DEBILITY.
However obscure the cause may be which contribute to render nervous debility a disease so prevalent, affecting, as it does, nearly one-half of our adult population, it is a melancholy fact that day by day, and year by year, we witness a most frightful increase of nervous affections from the slightest neuralgia to the more grave and extreme forms of
NERVOUS PROSTRATION.
Is characterized by a general languor or weakness of the whole organism, especially of the nervous system, obstructing and preventing the ordinary functions of nature; hence there is a disordered state of the secretions; constipation, scanty and high-colored urine, with an excess of earthy or limey sediment, indicative of waste of brain and nerve substance, frequent palpitations of the heart, loss of memory, and marked irresolution of purpose, and inability to carry into action any well defined business enterprise, or to fix the mind upon any one thing at a time. There is great sensitiveness to impress, though retained but a short time, with a flickering and fluttering condition of the mental faculties, rendering an individual what is commonly called a whiffle-minded, or fickle-minded man.
This condition of the individual, distressing as it is, may, with a certainty, be cured by
THE CORDIAL BALM OF SYRICUM AND LOTHROP'S TONIC PILLS.
Medicines unrivalled for their wonderful properties and remarkable cures of all Nervous Complaints. Their efficacy is equally great in the treatment and cure of Cancers, Nodes, Ulcers, Pustule, Pimples, Tetter, Fever Sores, Ringworm, Erysipelas, Scaldhead, Barbers' Itch, Scurvy, Salt Rheum, Copper-Colored Blotches, Glandular Swelling, Worms and Black Spots in the Flesh, Discolorations, Ulcers in the Throat, Mouth and Nose, Sore Legs, and sores of every character, because these medicines are the very best
BLOOD MEDICINE
Ever placed before the people, and are warranted to be the most Powerful Alterative ever originated by man, removing Morbid Sensibility, Depression of Spirits, Dementia, and Melancholia.
Each package of the Cordial Balm contains one box of the Tonic Pills, which may also be had separately at 50 cents per box.

FINANCE AND TRADE.

WEDNESDAY EVENING, October 6, 1875.

The amount of railway stocks and bonds on which the different rates of dividend and interest were paid in 1874 in England is shown by a table recently compiled by *Herepath's Railway Journal*. A comparision of the figures thus obtained with similar figures taken from Poor's Manual shows some striking differences. The non-dividend paying shares in England in 1874 were $240,000,000 out of nearly $3,000,000,000 of railway capital, while in the same year out of $1,990,000,000 American railway capital $1,145,463,794 paid no dividends. This might be partially accounted for by the fact that a great part of the railway capital of the past few years is merely nominal, the work of construction having been carried on by means of bonds. The pernicious results of this practice can be seen in the next comparison for the amount of railway bonds on which default has been made in the payment of the interest is in England but $2,500,000, against $500,000,000 in America. Passing from cause to effect again, we find the rate of interest paid by more than half the English railways is less than 4 per cent., while an American railway, with good credit and in a strong condition, is counted lucky if it can sell a 6 per cent. bond at par. The proportion of debt to share-capital explains a part of this difference also, the funded debt in England being only 26 per cent. of the capital, while in the United States it is 55 per cent. Evidently a company which pledges a hundred dollars' worth of property for a loan of $26 ought to get it on better terms than one that raises $55 by loan on the same amount of property. The margin for security is as 74 to 45 in favor of the first named borrower.

In mitigation of this rather unflattering comparisons we can urge the newness of our enterprises against the development, age and stability of the British system. It can also be said that while more railroads in this country than in England pay no dividend, the number of those who pay above six per cent. is also far greater. In fact, the policy of American railways is either to pay a good dividend or none at all; the number of dividends so passed in 1874 makes this comparison more unfavorable than it would otherwise be. Such corporations as the Pennsylvania Railroad and New York Central paying eight per cent. on seventy and ninety millions have no equals in England. It might also be said that the very existence of a large share of the defaulting railway bonds, which are discreditable to our side in this comparison, is due to the readiness of English capital, previous to 1873, to foster enterprises whose bonds no prudent American would have taken.

—The local money market continues quiet with a somewhat increased tendency to ease, now that a call for a bank statement has been received, and there is more disposition on the part of the National banks to employ their funds in discounting the best commercial paper. The general satisfactory condition of affairs in mercantile circles, combined with the fact that nearly all of the mills are in full operation, would indicate an active call for loans from legitimate borrowers, but the fact is that paper of the class which the banks will handle is not offering in such quantities as to absorb all the loanable funds in the banks. Rates of discount are easy. There are occasional call loans made on collateral securities at 5@6 per cent., while prime commercial paper of the usual length is ruling at 7@9 per cent. at the banks, 9@12 per cent. on the street. There is some increase in counter business incident upon the usual October settlements, the work on which is just about getting into operation. Eastern exchange continues in good supply and rules at par, while the dealings in local stocks and securities continue to display the usual lack of animation. We see that the Philadelphia *Ledger* states "that a proposition has been made to establish a clearing house for the banks of Pittsburgh and Allegheny." As Pittsburgh is the fourth or fifth banking center of the country, it is doing us some injustice to suppose that we have not had a clearing house in full operation for several years. The proposition is to inaugurate a regular statement of the condition of the banks, through the clearing house, a project, which we hope, will meet with the approval of bankers generally.

—The Nevada Bank of San Francisco opened on Monday last, with a cash capital of $5,000,000 in gold and the right to increase, at the pleasure of the trustees, to $20,000,000. The following are the officers of the bank: President, Louis McLane; Cashier, N. K. Masten; Directors, J. C. Flood, W. S. O'Brien, John W. Mackey, James G. Fair and Louis McLane. We take the following facts concerning the organization from an exchange:

The bank is incorporated under the general laws of California, its stock is liable to assessment, and the stockholders are personally responsible for all liabilities or losses incurred under a provision of the Constitution of the State applicable to banking and insurance corporations. The products of the Consolidated Virginia mine and of the California mine flow directly into the Nevada Bank. The bank party owns, in addition to its partially developed gold and silver mines in California and Nevada, the following well known mines on the Comstock lode:

Name.	Capital.	Market value.
California mine	$54,000,000	$28,620,000
Consolidated Virginia mine	10,800,000	30,240,000

Hale & Norcross (original stock)	1,600,000	1,000,000
Total	$109,200,000	$69,548,000

The market value given above is founded on street transactions in San Francisco during the past week, while the Bank of California was suspended and the Stock Exchange closed, and is from 30 to 50 per cent. below the ruling prices prior to the panic. In addition to the above mines, the bank party own the following mills, some of which are worth $1,000,000 each: Consolidated Virginia, California, Occidental, French, Mariposa, Sacramento, Douglass, Empire, Nevada, Morgan, Sierra and others, beside the great Sierra Nevada Flume, the San Francisco Assaying and Refining Work, and several short-line railroads.

—The exports of domestic produce and miscellaneous goods from New York for the week ending yesterday are $5,837,619; against $6,866,219 for the corresponding week in 1874, and $8,378,130 for 1873. The total exports of produce from the port since January 1, this year, amount to $191,280,000, against $224,858,723 for the corresponding period of 1874, and $223,546,358 of 1873.

—THE Comptroller of the Currency issued the following circular yesterday:

Dangerous counterfeits are in circulation of the denomination of $5 of the following banks: The First National Bank of Chicago, Illinois; The Traders' National Bank of Chicago, Illinois; The First National Bank of Paxton, Illinois, and The First National Bank of Canton, Illinois. Nearly the entire amount of the genuine $5 notes of these banks have been withdrawn from circulation and no additional issues will be made. The Controller is desirous of retiring the whole amount from circulation, and national banks are requested to transmit to the Treasury for redemption all such notes as may come into their possession.

—The following table shows the prices of gold, Government bonds, railway stocks, etc., at the various sessions of the New York Stock Exchange during the day, furnished by the Fifth National Bank, No. 16 Sixth street:

Gold Closed at 116⅝.

MONEY.

NEW YORK, October 6.—Money more active at 3@4 per cent. Prime mercantile paper 5@7 per cent. Custom receipts $352,000. The Assistant Treasurer disbursed $56,000. Clearings $39,000,000. Bankers' bills 479@483. Banks are shipping currency more freely to the West.

GOLD.

Gold opened at 117 and closed at 116⅝, with sales in the interim at 117⅛. Rates for borrowing 1-64 and 1-32 per diem, and 7, 6 and 3 per cent. per annum. Loans also made flat. To-day $175,000 gold left San Francisco for New York.

STOCKS AND BONDS.

Governments firm. Railroad bonds were firm in late dealings; Union Pacific sinking funds advanced from 89 to 89¼, land grants from 98¼ to 99, and Western Pacific from 95 to 95½. Central Pacific sold at 107⅛; Chicago and Northwestern consolidated, coupon gold bonds, at 87; Rock Island 7's at 109 and Louisville and Nashville consolidated at 82½@83c. The St. Paul Company through their trustee advertised to purchase $100,000 of their second mortgage bonds under sealed offers, to be opened on the 25th inst., the bonds to be delivered October 30th. Trustees of the Hannibal and St. Joseph land grant will open sealed proposals on Friday for sale to trust of $50,000 of land grant bonds of the company. This reduces the outstanding bonds of the trust, originally for $4,000,000, below $290,000.

The *Express* says: "It would not be surprising if the money market showed a hardening tendency in the future, as it is an indisputable fact that trade is improving, and that crops commenced to move from the interior to the seaboard. Outside of Wall street a more cheerful feeling prevails, and accounts from different parts of the country are hopeful as to the future of general business."

State securities quiet. The stock market opened firm, but subsequently there was the renewal of depression which has characterized the dealings for some days past. The change in the general list was not marked except in prices, being chiefly in Missouri Pacific and Union Pacific. The former opened at 27½ and afterward declined 4½ per cent., touching 23¼. Union Pacific advanced from 62 to 63 and declined to 61⅛. New Jersey Central rose to 104¼ and Atlantic and Pacific preferred to 7¼, but there was a decline afterwards of one per cent. Western Union, Pacific Mail and Erie were firm. At Second Board the market was strong with a recovery of ¼@½ in general list. Stocks at the close were generally firm, with a recovery of ⅛ to ¾ per cent. from the lowest point of the day. Union Pacific rallied from 61¼ to 62¼ and closed at 61¾. Lake Shore advanced to 54⅜ and left off at 54¼. Pacific Mail recovered to 36⅛ and Western Union to 76¼. Northwest rose to 38⅞ and closed at 38⅛. New Jersey Central advanced to 104¼ bid, and Delaware, Lackawanna and Western was steady at 118⅛@118¼. New York Central, Harlem and Rock Island were firm. Atlantic and Pacific Telegraph advanced to 18. Central Pacific was 95 bid and none offered. Missouri Pacific rallied to 25, but finally closed at 23¾@24. Atlantic and Pacific preferred closed at 6¾@6⅞. The directors of this company will meet to-morrow, when some statement will probably be made. The transactions at the Stock Exchange were 121,000 shares, of which 18,000 were Pacific Mail, 4,000 Western Union, 10,000 Northwestern common, 3,000 St. Paul common, 1,100 preferred, 2,300 Erie, 45,000 Lake Shore, 2,060 Ohios, 1,100 Wabash, 11,000 Union Pacific and 13,000 Missouris.

GENERAL MARKETS.

OFFICE OF THE PITTSBURGH COMMERCIAL,
WEDNESDAY, October 6, 1875.

The general report concerning business throughout the various branches of trade along Liberty, Wood and Water streets to-day was quite satisfactory. Nearly all the mercantile lines of business were actively employed, and while in many cases there have been recent instances of greater activity in single branches of trade, there has not been a day for a long time when there seemed to be a more general demand for merchandise, or an activity which so thoroughly permeated and enlivened all lines of business. In the grain trade much improvement is visible, a large portion of which is due to the opening of the Pennsylvania Railroad to eastern shipments, and several thousand bushels of grain have so been shipped during the past few days. Provisions are active and prices in this line are undergoing a rapid advance caused by the higher markets in the West. Other lines of trade are active with values generally very steady.

The Boston *Commercial Bulletin* has the following concerning the diversion of the boot and shoe trade from New England to more Western points:

"Since 1867 there has been a steady development of Western manufacturing, with an apparent slow shrinkage in the volume of consumption. This shrinkage, until 1872, was more apparent than real. The quality of goods for the previous five years had been steadily improving, so that the masses were being shod more and more durably each season; hence fewer boots and shoes were required. This had the effect of breaking up a good many makers of shoddy goods, and of rather concentrating the business into the larger concerns, which, from an aggregate of capital, could command advantageous terms in buying and selling, while the Crispin strikes further tended, by advancing wages, to break up the opportunities of small men.

At the period above noted, 1872, the local factories of the Middle and Western States had made the success of their industry a matter of sectional pride, and had succeeded in getting upon the market a line of cheap things, largely characteristic of a novel industry, inexperienced labor, and injudicious investments. The results are now evident. Popular taste has been emphatically demoralized, and under the influence of local prejudices and low prices the Easten manufactures have been compelled to exercise that Yankee ingenuity which will secure a market and make a profit."

The latest crop advices by mail from Louisiana are encouraging. A general recovery from the effects of the recent heavy storm is noted, and the work of getting in the cotton is progressing in good earnest. The non-appearance of frost up to this time, it is thought, will place the aggregate yield in some districts considerably in excess of the amount reckoned on when allowances were made for predicted frosts. The sugar crop also promises an abundant yield, and the quality, providing there is a preponderance of dry weather during the remainder of autumn, will also be very good. As for the corn, that is now nearly all harvested, and the yield in most parishes proves to be the largest that has been had for a number of years past.

The United States is constantly adding to the list of its manufactures which are finding markets in Great Britain. Among the most recent additions the New York *Bulletin* notices that of leather belting, the first invoice of which was shipped last week by a New York firm. This shipment was upon the order of Sir William Armstrong, the great gun manufacturer of England. In this order were included two belts of usual dimensions, one being two feet eight inches wide and ninety-four feet long, and the other eighteen inches wide and one hundred and twenty-three feet long, and of double thickness.

The receipts of the leading articles of produce since our last are as follows:

Flour bbls	1,135	Apples, bbls	623
Cheese, bxs	100	Corn, bus	469

The quotations given in the following reports are prices realized in wholesale transactions, unless otherwise specified. On small sales, dealers will charge an advance. Sales of grain, unless stated to the contrary, are free of elevator.

Grain, Flour and Feed.

GRAIN—There is more activity noticeable in the grain trade and the volume of business is moderately large. The amount of business done is fair and the shipping trade shows a fair increase. A very beneficial effect upon this market, of the *pro rata* arrangements which permits eastward shipments, is the prevention of the periodical successions of over-supply and scarcity which have during the past two years exercised an unnatural effect on prices. *Wheat* is active and a little steadier; receipts are 12,660 bushels for the week ending to-day, against 18,182 bushels the preceding week. Old wheat is practically out of market; prime sound new wheat, the supplies of which are principally from Michigan, is active and in good demand. We note sales of 2 cars Michigan white wheat at $1 42; 2 cars do $1 42; 2 cars do $1 40. Old wheat is rather nominal at $1 55@1 58 per bushel for white; $1 51@1 54 for amber; $1 47@1 50 for red winter; new wheat is in good demand for strictly sound grades. Michigan white wheat is active at $1 40@1 43 per bushel; prime sound new red winter $1 30@1 35; damaged $1 00@1 15. *Corn* is easy, and while quotations are nominally unchanged, prices would generally be shaded a cent or two to secure sales. Receipts are 7,509 bushels against 2,692 for the previous week. The business included 1 car shelled prime yellow at 76c; 1 car do high mixed on track 70c. We quote shelled at 70@71c ⅌ bushel for prime yellow; 69@70c for high mixed; 67@68c for low mixed; ear corn, 72@73c, per bushel for prime yellow on track; 70@71 for mixed. *Oats* were in liberal supply with receipts of 39,478 bushels for the past week, against 26,663 bushels for the previous week. The market was active with prices easy but quotably unchanged. The sales included 1 car Ohio white at 44c; 1 car do 44½c; 2 cars Pennsylvania white 44c; 1 car Ohio do on track 41½c. We quote Western white at 46@47c per bushel; Ohio and Pennsylvania do, 44@45c; dark to light mixed, 42@44c. *Barley* is firmer for prime grades while the liberal offerings of discolored grades has made those qualities weak. We hear of business to the extent of 3 cars spring barley at $1 20@1 35 as to quality. Receipts for the past week were 14,820 bushels. We quote at $1 30@1 35 for prime spring; $1 10@1 20 for sound grain slightly off color, $1 20@1 25 for Pennsylvania and Ohio fall. *Rye* with unimportant receipts or business, at 87@90c per bushel for prime. Jobbing prices of corn and oats rule 3@5c above quotations.

FLOUR—With increased receipts, amounting to 6,354 barrels for the week ending to-day, the market is active and firm. We quote the wholesale prices of the local millers as follows: No. 1 white wheat flour $8 00 ⅌ bbl; No. 1 amber do $7 50; red wheat flour $7 25; in sacks 25c off ⅌ bbl. The jobbing prices of the leading dealers for standard brands of flours are steady and firm as follows: Choice brands of white winter wheat flour at $8 00@8 25; well known brands of family flour $7 50; Wisconsin is quoted at $7 00; Minnesota $7 25; new red winter wheat flour is active at $6 50@6 75; Graham flour $7 25@7 50; self raising flour, in 6 lb packages, $3 25 ⅌ dozen packages; cornmeal 95c ⅌ bushel; oatmeal $7 00 ⅌ bbl; kegs $3 75. Rye flour $6 25 ⅌ bbl.

HAY—The market is easy without any material alteration in prices. Receipts for the week are 3,119 bales. We quote prime No. 1 timothy, on track at $21 00@22 00 ⅌ ton; No. 2 $19 00@20 00; upland prairie $16 00@17 00. Sales from store were active at $23 00@24 00. Cut hay is quoted at $25 00 ⅌ ton in car lots on track; jobbing from store at $27 00. Oat straw $12 00@14 00 ⅌ ton.

MILL FEED—We quote bran at $1 05@1 10 ⅌ cwt; seconds $1 10@1 25 ⅌ cwt; middlings $1 45@1 55 ⅌ cwt; chopped feed $1 50@1 60 ⅌ cwt; oil meal $1 90@2 00 ⅌ cwt.

Country Produce.

APPLES—The market is liberally supplied and easy with receipts for the week of 2,449 barrels. We quote choice eating apples at $3 50@4 00 ⅌ barrel; large cooking $3 50@4 00; common to medium grades in light demand at $2 00@3 00.

BEANS—Quotations are nominal at $1 95@2 05 for prime mediums; navies $2 10@2 20.

BUCKWHEAT FLOUR.—We quote new buckwheat flour at $4 00 per cwt.

BUTTER—Receipts are liberal, having been 286 packages for the week and the demand is active at easy prices. We quote extra creamery rolls at 30@32c ⅌ lb; prime to choice dairy was steady at 28@30c; fair to good 22@26c; common to fair 15@20c.

CRANBERRIES—Are quoted steady at $11 00 ⅌ barrel.

CHEESE—The market is active. Receipts for the week were 742 boxes. We quote at 12@12½c ⅌ lb for prime Ohio factory; New York Goshen 13c; Sweitzer 16@18c; Limberger 14@16c.

CIDER—We quote new sweet cider at $7 75@8 00 ⅌ barrel.

EGGS—There was a light supply and quotations were higher at 23c ⅌ dozen for strictly fresh

GRAPES—There was a rather light supply and prices were firm at 6@7c ⅌ lb.

HONEY—New domestic honey is quoted at 20@25c ⅌ pound; California honey is quoted at 30c per lb.

MINCE MEAT—Prices are quoted at 12c per lb.

POTATOES—With heavy receipts, amounting to 11,049 boxes for the week and 10,862 bus the previous week, the market is weak and depressed. We note sales in car lots on track at 35@40c ⅌ bushel. From store there is a quiet but easy market at $1 50@1 75 ⅌ barrel; 50@55c ⅌ bushel. Sweet potatoes are easy at $2 50@3 00 ⅌ barrel for Baltimores; $3 00@3 50 for Jerseys.

POULTRY—There is a moderately active trade. Spring chickens are quoted at 45@50c ⅌ pair; old hens 65@70c ⅌ pair.

SEEDS—Flaxseed is quiet at $1 75@1 80; timothy seed is jobbing at $2 90@3 00 ⅌ bushel; in round lots $2 80@2 90. Cloverseed $8 25@8 50.

VEGETABLES—We quote onions in liberal supply and weak at $2 25@2 50 per barrel. Dried green peas are quoted at $1 90@2 00 per bushel.

Provisions.

The upward movement in the prices of hams and sides continues owing to the advanced prices at the supply markets and we to-day note another rise of ½c on bacon and ½c on hams and sugar cured shoulders. The receipts for the week ending to-day were very liberal, aggregating 20,000 pieces and 988 tierces, estimated at nearly 600,000 barrels.

BACON—We quote shoulders at 11c ⅌ lb; clear-rib sides 15c; clear sides 15¼c.

HAMS—We quote plain sugar-cured at 17c. Sugar-cured shoulders 12½c; breakfast bacon canvassed is quoted at 16½c; dried beef 15c; beef tongues, ⅌ dozen, $6 50; ham sausage 10c.

MESS PORK—The market is quiet and steady. We quote at $23 50 ⅌ bbl.

LARD—We quote prime lard, refined, in tierces, ⅌ lb, 15c; half bbls do 15¼c; in buckets, 16c; in 3 lb caddies, 17¼c; in 5 lb caddies, 17¼c; in 3 lb pails 18c; in 5 lb do, 17¾c; in 6 lb do 17¾c.

LARD OIL—The market is steady. We quote extra No. 1 lard oil, current make, $1 05@1 08 ⅌ gallon; No. 1 do, 95c; No. 2, 75c.

TALLOW—We quote chandlers' tallow at 10@10½c; choice country rendered 9@9½c; medium do, 7¼@8c.

Yesterday's Cincinnati *Times* reports the provision market of that city as follows: "The market is stronger, and holders are very firm in their views. The offerings are light. Mess Pork—The market is firm and higher. We quote city mess at $22 62½. No country mess on the market. Bulkmeats—The market is firm and held higher; shoulders at 9¾@10c; clear rib 14c; clear sides at 14½c. Sale of 20,000 lbs of clear rib at 14c; 20,000 lbs of clear sides at 14½c. Bacon—The market is very firm. Shoulders 10½c; clear rib 15c; clear sides 15½c. Lard—The market is stronger; steam 13½c; country kettle 13½c; city 14c; current make 13½c. Sugar-cured Hams—The market is firm at 14¼@15c, as to brand and average. Breakfast Bacon—Scarce and in fair demand at 15@15½c. Sugar Pickled Hams—Steady with fair trade at 13@13½c.

Petroleum.

October 7.—The bear influence in both branches of the petroleum market was decidedly in the ascendent yesterday, and a sharp and very heavy decline took place both in crude and refined. The influence of the Eastern markets was decidedly in favor of the movement, aided by the McKean county developments, which are evidently being used as a means to depress prices to a degree far beyond the actual value so far as it is yet shown to exist.

CRUDE—The market was weakening, drooping, and under the continued hammering of the bears fell off to a decided extent. The early quotations were at $1 15@1 17½ for both United and Conduit certificates, with immediate shipment quoted at $1 42½@1 45. It will be noted that the depression is more marked in certificates than in shipment oil, which is not wholly an unfavorable sign. The volume of business continues large, although it is to a great extent speculative, sales being reported of 171,000 barrels.

REFINED—The refined market continues its downward course, in sympathy with crude, and the seaboard markets are prompt to take advantage of any weakness in the markets here or in the oil regions. A decline took place late yesterday and this morning of ⅛@¼c in addition to the falling off previously noted. We quote standard white on the cars at 10¼@10½c. New York rules at 13¾@13⅞c for spot and October. Philadelphia is quoted at 12¾@13c for prompt delivery. Baltimore rules at 12¾@12⅞c.

OIL BARRELS—Remain dull and quiet at $1 35@1 40 for city; $1 20@1 25 for country; 90c@$1 00 for second hand.

[By Western Union Telegraph.]

OIL CITY, October 6.—The *Derrick* says: The tendency of prices in all the markets was toward a lower range. At the opening there were small sales of United Wells certificates at $1 26½@1 27½; from these figures there was a steady decline to $1 17½ about seven o'clock in evening. At this price 5,000@10,000 barrels changed hands, checking the decline. Later there was sharp reaction to $1 20@1 21¼. At the close the feeling was easier and there were sellers at $1 18¾. Conduit sold from $1 27½ down to $1 20, closing at $1 20, with buyers at $1 17½. Shipment river delivery and certificates pipeage paid sold early in the day at $1 50@1 51½, decline to $1 45 rallied to $1 47½ and closed at $1 45 bid $1 46¾ asked. Sales of well certificates were 20,000 barrels; shipment 18,000 barrels.

TITUSVILLE, October 6.—The *Herald* says: A very strong bear movement was yesterday inaugurated by Eastern parties against the crude markets of the oil region, and a perpetual hammering was kept up from the opening until the close. Heavy lots of 10,000 and 20,000 barrels were hurled one after another at the bulls, and the consequence was a big scare towards evening. Rumors were circulated all over the region in regard to the enormous yield of the Crocker well in McKean county, which had not the slightest foundation in fact. The right wing of the pocket brigade was turned and a precipitate rush to sell, bordering on a panic, ensued. United opened at $1 25 bid and $1 26½ asked, and was forced down to $1 17½. At this point it did not remain long and gradually recovered to $1 21½ bid at close. Pipeage paid certificates opened at $1 52½, declined to $1 46½ and reacted to $1 47½ bid at close. Upper Creek sold down from $1 52½ at the opening, to $1 47½ and closed firm at $1 50 bid. The total sales were 171,000 barrels.

NEW YORK, October 6, closing 5.—Prices are reduced about ¼c with a dull market and lower on the creek, closing, however, steadier. Sales are 3,000 barrels refined at 13¾c. The closing prices are: Crude in bulk 6¾@6⅞c for prompt and 6⅞@6¾c for October; do in shipping order 10¼@10⅝c for spot and October. refined 13¾c for prompt; 13½ for October; cases 17¼@19¼c. Naphtha 11c for prompt. For Philadelphia delivery refined is quoted at 13c for spot and the month.

PARKERS, October 6.—Market quiet at $1 17½ for United; shipment $1 42½@1 45.

TITUSVILLE, October 6.—Market weak at $1 45.

OIL CITY, October 6.—Market nominal at $1 45.

ROUSEVILLE, October 6.—Market quiet and dull at $1 45@1 47½.

TIDIOUTE, October 6.—Market quiet and dull at $1 40@1 42½.

PHILADELPHIA, October 6.—Market quiet; standard white 12¾@13c; crude 6c; cases 16½@17c.

Dry Goods.

Trade among the wholesale and jobbing dry goods houses continues exceedingly active, and is all that could be desired so far as extent of business is concerned. Operations are conducted very cautiously and buyers are sure to be on the safe side. The margins of profit in the business are also very close, all of which facts are interpreted to mean that the basis on which the trade rests is the solid hard pan and that the progress hereafter will be in the right direction. Price changes are not numerous. We quote as follows:

NEW YORK, October 6.—The weather was unfavorable and business light in all departments. Cotton goods fairly steady at unchanged prices. Cotton flannels in good demand and firm. Cheviots less active. Prints quiet. Ginghams in active demand. Dress goods and felt skirts in steady request. Wool flannels in fair demand and steady. Foreign dress goods fairly active and in light supply.

Wool.

The local trade in wool is still somewhat limited although there is a visible improvement in the demand both from local and Eastern buyers. No new features of importance were noted in this week's trade. Prices are quotably unaltered, 39@40c being paid for the best grades of fine wool, while greasy, half washed fleeces bring 25@35c. Tub-washed and combing wools are nearly all marketed and quotations are nominal, as follows: Tub-washed 44@46c; combing, fine, 46@49c; coarse and medium do 43@45c; pulled wools 40c.

The New York *Bulletin* reports as follows: "Quite a steady and uniform tone is preserved on the market for all domestic grades, and the position is quite as cheerful as at any time since the advent of the new clip. The small purchases made in the country by our dealers during the spring and early summer prevented any great accumulation of stock, and the comparatively full business of the past few weeks has made quite an inroad upon the desirable parcels, leaving many of the trade at present without samples calculated to attract customers. There is a large amount of wool yet back in the country, but owners who have been indifferent all the season are now naturally less inclined than ever to sell, and it is considered doubtful if supplies can be replenished here except at an advance. As yet we find nothing to justify a positive addition to quotations, but a number of small lots of a fine combing and delaine fleeces have sold well up, say 59@60c, and these are general asking figures. There is also some talk of advancing the rate on fine lambs' pulled, the production of which is constantly sold ahead, and short extras too rank among the scarce grades. Supers are not exactly plenty, but there is enough of them to meet the ruling demand. Ohio fleeces are still worth about 45@47c for the average run of extra and double extra, though anything in the way of an extra lot is now held with a little more firmness and confidence. California of the old fall clip is pretty closely sold up, and the new not having commenced to arrive with any freedom, the market is necessarily quiet. The spring clip, however, has sold very well, and commanded full rates on all good free stock, but now and then a burry lot has been run out very low. Texas wools are held stiffly, a little beyond current bids, if anything, and this has a tendency to check business. The irregular clips coming under the general head of Western fleeces are firm in sympathy with the standard grades, and have met with a proportionate sale. The late demand has shown nothing of a speculative character, manufacturers being the principal buyers, and a great many are still to be found around the market, though during all the recent movements, and now everyone handling supplies did so on a previous close calculation of known necessities near at hand, and no persuasion could induce them to anticipate their wants. Indeed, manufacturers claim that while goods have recently sold with greater freedom, and the time is at hand when the spring production must be commenced, the one was the result of an immense shrinkage on values and a corresponding loss, while the other will be conducted with the greatest caution and curtailed on every addition to the cost of material. We find some of our dealers also accepting this view of the situation and inclined to let their stocks go whenever a good, full bid can be obtained at market rates."

[By Associated Press.]

BOSTON, October 6.—Wool—Prices well sustained for domestic under a steady demand which is active for combing and delaine selections. Medium wools in demand and firm. Fine fleeces in more request and quite steady. Pulled wools continue quiet; sales of Ohio and Pennsylvania fleeces 44@46c for extra and double extra, and 48@50c for medium and No. 1 Michigan; Wisconsin fleeces 42@43c; fair average lots of extra 45@47c for medium; combing and delaine fleeces 50@60c for washed and 40@45c for unwashed.

State of the Market.

CATTLE.

The run of cattle this week is 460 cars, against 421 last week, and this, too, notwithstanding the report sent abroad of the dull and lifeless market last week. The advices from the East are still to the effect that the market there is overstocked and prices lower. This being the situation Eastward, the natural sequence is that the trade should rule dull and draggy here. The quality of the cattle offered for sale is no improvement upon last week, the majority being of the common and medium grades. There are but few Eastern buyers on hand and they are not purchasing freely either of cattle, sheep or hogs. Taking it all in all the cattle market this week and last have not been equalled for dullness since the bursting of the panic upon the country. The pens are full of cattle to-day and owners are holding for last weeks prices, whilst buyers want a lower range of figures. Thus the matter stands at the present writing. We quote as follows:

Choice, 1,400 to 1,500 lbs	$6 25@6 50
Good, 1,300 to 1,400 lbs	6 00@6 10
Fair, 1,100 to 1,200 lbs	5 00@5 75
Common, 900 to 1,000 lbs	4 00@4 50
Bulls and cows	3 00@3 25
Stockers	2 75@3 00
Texans	3 00@3 75

HOGS.

As will be seen by the tables given above the arrivals of hogs have been 207½ cars, against 120 last week. The market is off from last week's prices fully 50@70c per cwt. New York buyers are not buying, hence the market is dull and draggy. The pens are filled with hogs to suit all classes of purchasers, but although prices are heavily shaded, buyers stand aloof and shake their heads, as much as to say we will wait for lower rates before we "jump into the wagon and take a ride." We quote:

Philadelphias	$8 40@8 75
Baltimores	8 15@8 25
Yorkers	7 85@8 10
Grassers and roughs	6 50@7 25

SHEEP.

The run of sheep was not so heavy this week as last, being 76½ cars against 90. There is no improvement in the market since our last report. Indeed, if anything, prices are lower and trade duller than last week. Choice 100 to 115 lbs coarse wooled sheep, which were quoted this day week at $5 50@5 62, will not command over $5 25@5 30 to-day. There were some bunches sold as low as $1 00 per head, on foot. There is a moderately active demand for choice open wooled 90 to 110 lbs sheep at quotations, while all species of common and medium grades are dull sale. Stock ewes continue in light demand. Shippers of sheep to this point, as well as their brothers in the cattle and swine business, complain loudly of the dull market and low prices offered, and in some instances reflect upon the commission men, as though they had it in their power to regulate the selling rates. Let all engaged in purchasing stock in the West take the COMMERCIAL and keep posted as to the state of the markets here and in the East, and purchase at a margin which will insure them profit enough to pay expenses and put dimes in their pockets, and no grumbling will be heard in future, either as regards commission men not performing impossibilities or going home with less money in their pockets than when they started away. The following are the current rates of the market to-day:

Choice, 100 to 115 lbs	$5 25@5 30
Choice, 95 to 100 lbs	4 75@5 00
Good, 85 to 90 lbs	4 25@4 50
Common and medium, 75 to 80 lbs	3 75@4 00
Scalawags, per head	1 00@1 25
Jersey ewes, per head	3 50@4 00
Bucks, per head	2 00@3 00

MILCH COWS.

There are few milch cows offering, owing to the lateness of the season. There were a few choice milkers on sale, but, as a general rule, they were of the common and medium order. They rated as follows:

Choice milkers, calves included	$65 00@70 00
Good	45 00@50 00
Fair	35 00@40 00
Common	28 00@30 00

HORSES AND MULES.

Several car loads of horses and mules passed through to-day for the East, after being rested, watered and fed. They were from Kentucky.

Sales and Purchases.

The following sales of cattle, hogs and sheep, with prices, are taken from the books of the firms named, and may be relied upon as being correct to the dot, "nothing extenuated nor aught set down in malice." The sales and purchases are for the week ending to-day, and are the surest index to the state of the market that could be given:

MONONGAHELA—Two feet one inch and stationary.

Boats Advertised for This Day.

Brownsville and Geneva..........4 P. M

The marks last evening indicated two feet one inch and about stationary. There is, however, over thirty inches of water in the channel. The weather during the day was cloudy; in the evening we had a warm rain.

CAPTAIN R. W. LIGHTBURN of Memphis is in Cincinnati.

THE Big Sandy river rose twelve feet on Saturday night.

THERE is only six feet six inches from St. Louis to Cairo.

THE Mississippi river is falling steadily from Cairo to New Orleans.

THE steamer Tarascon is on the ways at Cincinnati undergoing repairs.

THE Naomi will take a tow of railroad iron from Cincinnati to Natchez.

THE West Wind and Mary Ament are lying up at the mouth of Wolf river.

THE steamer Arlington was aground fourteen hours on Cumberland bar.

DISPATCHES from St. Paul report but three feet six inches on Pig's Eye Bar.

"GRAND REPUBLIC" is the name suggested for Captain Thorngrave's new steamer.

PEOPLE along the White river Valley have very little money and plenty of chills.

THE Natchez arrived at New Orleans with 2,487 bales and 3,856 sacks of cotton seed.

WE notice a material improvement in the river column of the St. Louis *Republican*.

JOHN S. PRINGLE, the eminent boatbuilder from Brownsville, was in the city yesterday.

THE Bart Able, a steamboat built by Captain H. H. Symmes a long time ago, is still running.

THE steamer Frank Pargoud arrived at New Orleans with 2,104 bales cotton and 4,588 bags seed.

DECK hands and rousters on packets to and from Memphis now receive $35 to $40 per month.

THE new steamer Mary Bell is expected at the St. Louis wharf on Monday next to load for the South.

THE steamboatmen at Memphis are in search of the individual who attempted to sink the Quickstep.

THE rates on cotton from White river to Memphis are $1 50 per bale, and to New Orleans $2 25 per bale.

CAPTAIN W. ISRAEL, a former Muskingum river boatman, is in the sugar business at Covington, Ky.

THE Memphis *Avalanche* says: Soon we expect to see our local packets carrying brass bands and passengers at $1 a head, supplying them music for nothing, and filling up outside sets in the dance with extra members of the crew.

THE Louisville *Courier-Journal* says: The Hillman came in with her nose mashed and bleeding, and the Vint Shinkle has gone on to Evansville with a hemorrhage of the lungs and a pain in her side.

THE St Louis *Globe* says: The steamer Emma Elliott yesterday broke through herself opposite Smith's. She broke the wrist of her larboard engine and after cylinder head; no other damage was done. She will be fully repaired and leave on her next regular day.

THE new steamer St. Francis Belle is lying up at Helena, with no trade offering for her to do business in. She made a trip up to Madison, on the St. Francis, and then quit for a period. Parties are trying to get her to go in the Black river trade from Jacksonport up.

WE had the pleasure yesterday of meeting our esteemed friend, James Rees, Jr. He appears fully recovered from his late sick spell. We were pleased to see him look so well. He is a clever gentleman, and has a multitude of friends who will rejoice in his restoration to health.

THE Memphis *Avalanche* says: The weather has turned cool and cotton picking progresses at a lively rate. Boats are bringing increased consignments of cotton, and this pleases our merchants very much, especially if the shipper is behind a little in his accounts. Things are working at our levee, and promise to be very lively soon.

THE Cairo *Bulletin* says: Major Charles J. Allen, United States Engineer, arrived from St. Louis by the Narrow Gauge road and is stopping at the St. Charles Hotel. The object of Major Allen's visit is to make an examination of the depredations which the Mississippi is making back of and above this city, with a view to taking such steps as will remove the danger which now threatens us.

THE Vicksburg *Herald* says: The New Orleans Combination Line steamers are to leave that city during the season in the following order, as we understand it at present: Katie on Monday, R. E. Lee Tuesday, Ouachita Belle Wednesday, Pargoud Thursday, Gov. Allen Friday, and Natchez Saturday. This gives a packet from New Orleans every day of the week, except Sunday. The Memphis packets Mary Belle and James Howard leave there alternate Thursdays, and the Thompson Dean and J. B. Maude alternate Wednesdays.

THE St. Louis *Globe-Democrat* says: An important meeting of steamboatmen, officers, etc., of the John Fitch Benevolent Society, was held Saturday night. Captain Joe Brown, ex-Mayor, made a few remarks, and in them touched the key-note that will make the music, and if carried to a successful issue, will bring the glory of old steamboat days back—we mean the success of the Eads jetties at the mouth of the Mississippi. It behooves every man who has the transportation of the Mississippi river at heart to give his earnest assistance to the pushing forward of these great works.

THE Yankton daily of Wednesday says: The steamer Nellie Peck, Andy Johnson, master, and "Doc" Terry, clerk, arrived this forenoon from Fort Stevenson. She brought down a full cargo of condemned arsenal stores and twenty-five cabin passengers, including twenty-two discharged soldiers. She distributed recruits at various military posts along the river.

The steamer Durfee, R. Massie, master, and S. V. Clevenger, clerk, will start to-morrow for Bismarck, carrying a full load of Government stores and a deck load of cabbages for the posts above.

THE *Nautical Gazette* says: We have about concluded arrangements whereby we shall have allotted to us space in the Coming Centennial Exposition at Philadelphia, for the display of all kinds of goods connected with the construction and outfit of vessels and steamboats. Thus far, we have not seen any attempt made to provide for a nautical department, and we have too much interest and pride in the handiwork of those interested in the development of our mercantile marine not to make an attempt to arouse this interest to come forward and make a fitting display of their skill talent and progressive genius. We shall be prepared, in a few days to forward circulars to ship builders, &c., setting forth the details of our plans. We have already made arrangements with Messrs. Dreyer, Simpson & Co., of Philadelphia, to act as our agents in this matter, and our valued friend and correspondent, Captain B. Snyder, of Philadelphia, will also aid us in this undertaking.

Poets and Poetry of Ireland.

Rev. Francis X. McCarthy will lecture this (Thursday) evening in the basement of St. Paul's Cathedral for the benefit of the Public Catholic Library. The subject chosen is "Poets and Poetry of Ireland," and in the hands of the reverend gentleman will undobtedly be interesting and instructive. Rev. McCarthy was the orator at the O'Connell centennial, and there should be a large audience on this occasion.

Portrait of Governor Hartranft.

Mr. Benjamin Singerly, the well-known printer of this city, has just published a very handsome and well executed lithographic portrait of our noble candidate for Governor, General John F. Hartranft. The lithograph was taken from a crayon drawing by Mr. Samuel Smith, also of this city, and Mr. Singerly's favorite artist. The likeness is a striking one, and the work as a whole is a credit to all concerned in getting it up.

Accidentally Shot.

Another case of shooting, through recklessness in handling a pistol, occurred last Monday in Patton township, by which a little son of Mr. Archibald Robinson was seriously wounded. It appears that the lad and his brother went to the house of Jacob Staymates to examine a revolver. While there Staymates took it down and cocked it. While turning around his thumb slipped and the revolver exploded, the ball entering the right side of young Robinson, who was sitting on a chair near by, and lodged near the hip on the left side. A physician was summoned, and the wound examined and pronounced quite serious. The lad was alive at last accounts, but rapidly sinking.

Another Application to Enjoin the "Two Orphans."

Yesterday forenoon, in the Court of Common Pleas, Judge Ewing presiding, the counsel for Messrs. Shook & Palmer, in the case against McKee Rankin and others, renewed their application for a preliminary injunction, and the further argument was fixed for two o'clock in the afternoon. At the hour stated, counsel appeared, additional affidavits were filed on both sides, and the argument proceeded. Mr. Brooks, for complainant, and Mr. Wier, for respondents, spoke at considerable length. Mr. Wier had not concluded his argument at six o'clock, when it was further adjourned until this morning.

Mercantile Library Lectures.

The coming lecture season promises to be a very attractive one, and the Library Lecture Committee, of which W. McClelland, Esq., is chairmon, gives elsewhere a list of their engagements that ought to please everybody. The list is a strong one throughout, and should cause our cultivated people to buy season tickets and fill the beautiful hall on every occasion. The course will open on the 26th inst., with Rev. E. H. Chapin, D. D., of New York, whose subject is not announced. Mr. Moncure D. Conway will follow November 2d on "The Devil," with Rev. J. Hyatt Smith the 16th with "New York to Jerusalem."

The sale of reserved seats will commence at 11 o'clock on Friday, October 15th, at the Library rooms.

The Humane Society.

The Executive Committee of the Humane Society met yesterday afternoon, Mr. Colton in the chair.

Superintendent Street reported the cases of cruelty attended to during the past week and the prosecutions entered and in progress. Another interview had been had with railroad officials regarding cattle transportation, and Mr. Layng, of the Fort Wayne Road, had visited Cleveland and Toledo and had learned that the northern roads would not agree to the demand to unload and feed and water cattle in transit.

Mr. Street is still in correspondence with societies in the cities named.

No business of importance was transacted.

Those Stolen Cattle

Some days since we made mention of the fact that a young man from Indiana, named Abram Doran, had been arrested in East Liberty on a charge of having 104 cattle in his possession which were claimed by a man named Goodenough. Doran alleged that he purchased the cattle from a Mr. Horace Marshal for the sum of $2,000, and upon being taken before the court was discharged. The cattle have all been disposed of and the proceeds held by Donnelly & McKabb and Cochran, Hesket & Co, who sold them, until the question of ownership is settled. A portion of the 42 head first disposed of by Donnelly & McKabb were followed to Lancaster and replevined. It is stated that Marshall was herdsman for Goodenough, and in the absence of his employer sold the cattle to Doran, got the money and left for parts unknown, and that an accomplice of his has been arrested and is now in jail in Warsaw, Indiana. The firms who handled the stock will not lose anything, Doran being the principal sufferer.

Beware

of any article offered you as a substitute for Sapolio. There are imitations and counterfeits—worthless and intended to deceive—placed upon the market by parties of sufficient character not to pick a pocket, but unscrupulous enough to take the benefits of another's labor, brains and money, by any means which does not make them amenable to the law.

There is but *one* Sapolio and nothing can take it's place. Do not believe it when told "it is just the same" or "just as good," for there is *no one article made that will do so much or do it so well as* SAPOLIO. It will save care and cash; will restore beauty and whiteness to marble mantels, tables and statuary; clean paint without marring its smoothness or dimming its lustre; will scour knives while it washes them; make china and glassware glisten with an added brightness; polish the tin, brass and copper ware used in the kitchen; cleanse the bath tub, floor, tables and shelves; wash oil cloths without injuring them; take out grease, dirt and stains from carpets, matting and other woven fabrics, and make home cleaner, brighter and happier.

A Sheriff Threatened with Attachment.

In the Court of Common Pleas No. 2, Judge Ewing presiding, John Barton, Esq., yesterday made a motion for a rule to show cause why an attachment should not issue against William Thompson, Sheriff of Washington county, to return writ in the case of A. Fulton's Son & Co., vs. Lewis M. Morgan, impleaded with Joseph A. Lambert, owners of the steamboat Fred Wilson, and pay over the money made thereon. A *testatum fi. fa.* had been issued by the Common Pleas of this county to the Sheriff of Washington county, in the above case, and the money made thereon, but the Sheriff informs Mr. Barton, by letter as follows. "If you will get some attorney here (Washington) to receipt my docket, I will pay the money at any time."

Mr. Barton stated that, under the rule of court in Washington county, no one but a regular attorney of said court could receipt the docket. But, in this case Sheriff Thompson was an officer of this court, and it was not necessary to employ a Washington county attorney to receipt the docket. The Court granted the rule upon Sheriff Thompson, to return the writ in the above case, and pay the money to the plaintiff or his attorney, or show cause why an attachment should not issue against him for contempt. The rule is returnable October 23d at ten o'clock A. M.

Fatal Accident at McKeesport.

Justice of the Peace Berrey of McKeesport, held an inquest, Tuesday, on the body of Miss Margaret Bankard, a young lady of seventeen, who was killed on Monday by being run over by a coal train, near the McKeesport depot. The following facts were elicited by the testimony: A freight and a coal train were standing on on the track at McKeesport, and the deceased, Margaret Bankard, attempted to cross the track at the rear end of the train, and just as she reached the track the coal train backed, running over her. A witness who pulled the unfortunate girl from under the wheels, asked her how the accident occurred, and she replied: "I thought the train had gone by, when it came back upon me." The deceased was mangled in a horrible manner, and died within an hour after the accident.

Dr. Vankirk was at once summoned, but the deceased, who had both of her legs badly crushed, eleven wheels having passing over her, besides sustaining other injuries, never rallied, and an hour after the accident expired.

The witnesses testified that the train was backing very slowly at the time, and that the engineer could not possibly have seen the woman; that there was no one on the end of the train, but that it was stopped immediately on being signalled.

One witness testified that he stood in his door near by and saw the woman attempting to run across the track when she fell, and before she could rise the cars were upon her.

The jury after hearing the testimony returned a verdict of accidental death.

THE WEST ELIZABETH HOMICIDE.

Trial of Thomas Slavin for the Murder of Daniel T. Lynch—The Defense—Arguments of Counsel—Charge of the Court—A Verdict of Not Guilty.

At the opening of the Oyer and Terminer yesterday, Judge White continued the trial of the case of Thomas Slavin, indicted for the murder of Daniel T. Lynch.

TESTIMONY FOR THE DEFENSE.

Mr. Swartzwelder, for the defense, offered the finding of the Coroner's inquest, dated January 4, 1874, to which there was no objection by the other side. This finding was, that Patrick Slavin had fired the fatal shot.

Patrick Morgan was called and testified that he knew Joseph Bennett and heard him say that it was Patrick Slavin that did the shooting.

Joseph Divine testified that he heard Robert Keenan say, at Mrs. Rapp's, that Patrick Slavin did the shooting; was in Pat's room, in the boarding house, after dinner that day and saw Pat examining a pistol; was at Maley's all afternoon and was lying on some boxes in the evening; lay there asleep until a man fell on him; he got up then, and heard a shot fired; saw Patrick Slavin going to the door with a revolver in his hand; he said, "Where is the next son of a ——." Witness then went to the brewery, with two other men, and got a glass of beer, when Tom and Pat Slavin both came in; soon after Constable Nolder appeared, when Bennett and Stewart spoke out and pointed to Pat as the man to arrest; Nodler went up to Pat and asked, "Are you Pat Slavin?" he replied, "Yes;" Nodler said, "You are my prisoner;" at this time Tom Slavin was standing facing the officer and nearer to him than Pat.

George Heidship was next examined and corroborated the last witness as to what took place when Nolder attempted to arrest Pat. Slavin. There were ten or twelve shots fired, during the disturbance, according to this witness. As soon as Patrick drew his pistol, they all cleared out of the bar room. Bennett pointed out Patrick as the man who shot Lynch, and Tom advised Pat. to keep quiet and go with the officer.

Robert Reed corroborated preceding witnesses, as the fact that Pat. was pointed out to the officer as the guilty party, and that Tom advised him to go with the constable. This witness testified that the first shots were fired outside, before Pat went out, and that Pat was the only one inside the bar who had a pistol.

John Slavin, a brother of the defendant, testified to having made efforts to subpœna Kilbride, Maley and others. He also stated that Patrick Slavin was dead—that he had been shot.

John Warren corroborated the other witnesses as to the pointing out of Patrick to officer Nolder, as the man who did the shooting.

Wm. Smith, warden of the jail, was called and examined as to the readiness with which a person could be seen and identified through the jail bars, and to the circumstances attending the visit of Wilmot and others, for the purpose of indentifying Thomas Slavin. He said a person could be distinctly seen through the bars, on approaching them from within, by parties outside, in front of the bars. He also stated that he objected to the mode of identification—calling the man to the bars, to look at him, instead of first having him placed among several other persons, which was the usual way.

This closed the testimony for the defense, and the Court took a recess until one o'clock.

At the opening of the court, Mr. Swartzwalder presented the following points, which he asked the Court to charge the jury upon:

1. That the question of identity is solely a question of fact, and therefore entirely for the consideration of the jury.
2. That in order to convict, the Commonwealth must establish affirmatively, beyond a reasonable doubt, every constituent or ingredient of the crime charged.
3. The crime charged must be so proved that the evidence thereof will exclude every other hypothesis arising out of the testimony than that of guilt.
4. If the jury have a reasonable doubt, arising out of the evidence, as to whether Thomas Slavin shot and killed David Lynch, they must acquit.

Mr. Swartzwelder then made the opening address on behalf of the defendant. His discussion of the law was brief. He took the position that the verdict of the jury in this case must take one of two forms: it must be "not guilty" or "guilty of murder of the first degree." There was no middle ground upon which the jury could stand. This being the opinion of the counsel, he urged that it was the duty of the jury to acquit—that the case was not free from doubt, and that the defendant was entitled to the benefit of any and every doubt arising out of the evidence.

Mr. Reardon followed, and reviewed the testimony at considerable length. He spoke very earnestly, for over an hour and a half, and showed the inconsistencies in the statements made by the witnesses for the Commonwealth, which cast such grave doubts upon the case that it would be impossible for the jury to find that the defendant was guilty of wilful, deliberate and premeditated murder, and ought to suffer death. There was but one other alternative a verdict of not guilty.

Mr. Moore then made the closing speech on behalf of the Commonwealth. He excepted emphatically to the position taken on the other side, that the jury could not find a verdict of guilty of murder of the second degree, or of manslaughter. They could so find, and he felt satisfied that the court would so charge. Mr. Moore reviewed the testimony at great length, and held that the identity of Thomas Slavin, as the murderer, had been made complete—absolutely certain—and that doubt as to that fact was simply fanciful. The jury should therefore convict of whatever degree the facts warranted.

CHARGE OF THE COURT.

Judge White then proceeded to charge the jury. They were to pass upon the guilt or innocence of the defendant, from the testimony before them. They were to decide, also, what was testimony, where there had been any disagreement as to the exact facts in evidence. They could find, under the indictment, a verdict of murder of the first or second degree, or of manslaughter. They were to pass upon the facts in the case, and find a verdict in accordance with those facts, leaving the consequences following their verdict to rest where they properly belong. A conscientious desire to get at the truth would lead to a proper conclusion. The first inquiry was: Was Daniel T. Lynch killed by a pistol shot, as alleged? This was not denied. The next inquiry was: Who fired the fatal shot? It was not necessary to go beyond the inquiry: Did Thomas Slavin fire the pistol? The evidence for the defense was to show that he did not. Three of the witnesses for the Commonwealth testify, undoubtingly, that he did. Two of them say they saw the pistol in his hand, and saw the deceased fall. A third saw the two shots fired, and heard Lynch fall. The testimony tending to show that the firing was done by Patrick Slavin, was then referred to, as also the explanations of counsel; but the court declined to express any opinion on them. The main inquiry was, Did the proof satisfy the jury that Thomas Slavin fired the fatal shot?

The points submitted by the defendant's counsel were then read, and the first and second points affirmed. The third point the court did not clearly comprehend; but the evidence should be sufficient to exclude any reasonable suspicion of the defendant's innocence. If this was the meaning of the proposition, it was affirmed. The fourth point was affirmed, and the phrase "reasonable doubt" was explained at some length. In criminal cases the rule was that every man was presumed innocent, until his guilt was proved. But a reasonable doubt was not a bare possibility of innocence. Where the evidence does not carry a clear and satisfactory conviction of the defendant's guilt, he must be acquitted. His guilt must be satisfactorily proved. But if the jury were convinced that Thomas Slavin did shoot Daniel Lynch, then they must go a step further and inquire into the degree of his guilt. Was he guilty of murder of the first or second degree, or of manslaughter? The Court then defined the various grades of homicide as applicable to the case. In murder of the first degree, there must be a specific intent to take life—a wilful, deliberate and premeditated killing. A felonious or malicious killing, without a specific intent to take life, and without premeditation, or the power to consider or reflect, would be murder of the second degree. Manslaughter was killing without malice, express or implied. If the defendant shot Lynch deliberately, with an intention to kill, it was murder of the first degree. If the defendant shot recklessly, not caring what the effect might be, and having no specific intent to kill, his act would be murder of the second degree. If he shot Lynch upon sudden impulse, the result of passion, the offense would be voluntary manslaughter.

The jury retired at half-past five o'clock, and the court took a recess until seven in the evening.

A VERDICT OF ACQUITTAL.

The Court re-convened at seven o'clock, and remained in session three quarters of an hour, without hearing from the jury. The counsel on both sides were present, as was also the brother of the prisoner. The Court was about to adjourn, when a messenger announced that the jury had agreed. The prisoner was brought in, and in a few minutes thereafter, the jury appeared and took their seats. After the formal questions had been asked and answered, the foreman announced the verdict "Not Guilty."

Mr. Swartzwelder then asked that the defendant be discharged by proclamation, which was done by order of the Court.

The prisoner, on stepping from the box, advanced to his counsel, Messrs. Swartzwelder and Reardon, and shook them cordially by the hand. Turning to the jury, he thanked them, and stated that if they had found him guilty they would have rendered a very unjust verdict. He could appear before his God, at any moment, and plead his entire innocence of the charge. He seemed disposed to talk further in regard to the matter, but his brother interrupted him by saying "come, let us go." So ended the case.

East End Property.

Colonel William A. Herron, real estate agent, within a few days, sold the elegant mansion and grounds of S. B. Douglas, situated on Amberton avenue, at Shady Side, for $17,000. The purchaser was Hon. John Scott.

THE EXPOSITION.

The Opening To-Day—Arrangements for the Grand Procession—The Route—Visitors Not to be Admitted till Saturday Morning.

Great progress was made yesterday in Exposition affairs, and the arrangements for a successful street display are completed. The Executive Committee appointed Col. Thomas M. Bayne, Grand Marshal, and that gentleman lost no time in entering upon the duties of his office, and attending to such details yesterday as were necessary to promote the success of the street display. The following appointments were announced by the Grand Marshal:

A. A. General—Col. J. S. Haymaker.

Aids—Hon. H. M. Long, Harry Darlington, Capt. J. C. Stockdale, H. W. Oliver, Jr., Alex. Patterson, Maj. W. G. McCandless, Jacob Reese, Dr. W. S. Huselton, Hon. John Irwin, J. M. Shaffer, Col. J. M. Schoonmaker, Geo. D. Ware, Fred Lang, Adam Weaver, H. Anderson, Jacob Lashell, Prof. S. A. Neale, Hon. Miles S. Humphreys, Thomas Burchfield, John L. Neeb, Nicholas Voegtly, William Schoyer, Josiah Cohen, Esq., C. H. Zug, William Heagy, J. McC Creighton, Hon. Peter Zern, Major William Frew, General J. H. Fitzhugh, Captain C. B. Seely, James McBrier, Walton Woolsey, T. B. Atterbury, John Barry, Hon. Hugh McNeil, Capt. John Gilfillan, B. B. Coursin, John Spencer, C. B. Herron John Megraw, J. E. B. Dalzell and D. L. Fleming,

ORDER OF FORMING COLUMN.

The Chief Marshal has issued the following order:

1. The first division of the civic procession, consisting of delegations in the city of Pittsburgh and the country between the Allegheny and Monongahela rivers and south of the Monongahela and Ohio, will form on Wood street, right resting on Fourth avenue, and will follow Colonel Negley's brigade.
2. The Second division, consisting of all delegations from the city of Allegheny and the country north of the rivers, will form at the rear of General Brown's brigade on Water street, right resting on Wood, and will follow the first division.
3. The divisions will form so as to be ready to move at ten o'clock A. M., sharp. Thursday, October 7th, 1875. The procession will follow the route of the military brigade.

The aids will procure horses and report for duty at nine o'clock A. M., at the Monongahela House, and will wear white sashes, which will be furnished them on request by E. Wilt, near *Gazette* building, Smithfield street.

The Chief Marshal will wear a blue and white sash, and the A. A. General a blue one. By order of

THOS. M. BAYNE,
J. S. HAYMAKER, Chief Marshal.
A. A. General.

THE MILITARY.

The Fourth brigade will form on Water street with the right resting on Wood.

The Third brigade will form on Wood street with right resting on Water.

THE ROUTE.

The column will move over the following route: Water to Smithfield street, thence to Third avenue, Third avenue to Grant, Grant street to Fifth avenue, Market and Sixth streets to Suspension bridge and across to Federal street, up Federal to North avenue, along North avenue to Irwin avenue, thence to Ridge avenue, thence to Marion avenue, along Marion to Martin street, thence to School street, thence to Exposition building by way of South avenue.

EXERCISES AT THE BUILDING.

After the column reaches the Exposition building, in Allegheny, the exercises will consist of short addresses from the outside central balcony by distinguished gentlemen, after which the opening prayer will be made inside the building by Prof. S. J. Wilson, D. D. Chaplain of the Fourteenth Regiment, and addresses by Rev. E. B. Snyder, Hon. Henry Rawle, State Superintendent Wickersham, Hon. James H. Hopkins, Hon. A. G. Cochran, John F. Dravo, Esq., Hon. J. C. Newmyer and others.

A POSTPONEMENT.

Although the Exposition will be formally opened to-day, it has been decided to defer the time of throwing the doors open to the public till Saturday morning at nine o'clock. This postponement has been rendered necessary by the backwardness of exhibitors in arranging their goods. The Executive Committee are not responsible for the delay, as the building has been ready for the reception of goods since Tuesday. At a meeting of the committee last evening the matter was duly considered, and action taken as above noted. Exhibitors are notified that their goods must all be in by Friday night, otherwise their space will be vacated and assigned to others. There are a number of applicants who have not been able to secure space for their goods, and in the event of delinquency on the part of those who have been more fortunate in this respect, in occupying their places in the building Friday night, these parties will be accommodated. It is the desire of the management to have the show in tip-top order before taking the people's money, and to this end the opening has been deferred.

The balloon ascension announced for to-day has also been postponed till Saturday.

A letter from Senator Schurz, regretting his inability to be present, was read at the meeting of the committee last evening.

COURT PROCEEDINGS.

U. S District Court—Judge McCandless.

T. Fawcett & Son vs. steam tug Stella. Further argument on libel; answer and proofs by J. M. Acheson, Esq., proctor for libellants.

Henry A. Freyvogle, bankrupt, Pittsburgh, on petition of the assignee, and on motion of John Barton, Esq., his solicitor, leave is granted the assignee to sell machine patterns, scrap iron, &c., at private sale.

Jno. J. Broadhead, bankrupt; it appearing that notice has been regularly given of a hearing and inquiry, on the 5th inst., to ascertain whether the resolution of composition, of the debtor and his creditors, has been passed in the manner required by law, and that the same has been so passed and no exceptions filed, it is, on motion of J. Scott Ferguson, Esq., solicitor for said debtor, ordered and decreed that the same be confirmed and the resolution recorded.

Jacob H. Dewees and Abraham Simons, Venango and Crawford counties, respectively filed petitions for final discharge and usual orders made.

Wm. Burns & Co., bankrupts, Allegheny county. Register Harper filed report with regard to claim of L. C. Lazear, assignee of Reese J. Thomas.

Common Pleas—Judge Sterrett.

The jury found for plaintiff for $8 21 in the case of James McClurg vs. Israel Cullen an action for rent alleged to be due.

In the case of Dr. J. S. Winans vs. Wm. C. Dean, an action for medical services, the jury found for plaintiff for $125.

The case of Daniel Donahue vs. Richard Jeffreys is on trial. This is an action for work and labor done.

INDUSTRIAL NOTES.

One day last week eighty-four tons of ingots were manufactured at the Edgar Thomson Steel Works.

Messrs. Mansfield & Co. have a fine display of their solid silver, nickle plated and brass goods, put up in a neat walnut and glass case for the Exposition.

According to information from England Hussey, Binns & Co. will either establish a manufactory in that country for making their patent shovels, or will dispose of rights to parties there.

There was rolled at the Edgar Thomson Steel Works, the other day, a sixty pound steel rail sixty feet long. It is perfect, and is believed to be the first of this length ever rolled.

J. Painter & Sons are taking steps to make an addition to their new rolling mill, to be built entirely of iron, 160x77 feet. This makes the third iron mill put up for Messrs. Painter & Sons on the South Side by W. B. Scaife & Sons. The trusses of the iron roof frame will carry three heavy lines of shafting for driving the machinery.

Memorial Service.

The memorial service in tribute to the memory of the Rev. Cornelius Springer, the oldest Methodist Protestant minister west of the Allegheny Mountains, were held in Zanesville, Ohio, on Sabbath last, during the session of the Muskingum Annual Conference in that place. The exercises were in the First Presbyterian Church, the largest in the city, and were attended by the Conference in a body. As Mr. Springer was the founder of the paper now known as the *Methodist Recorder*, of Pittsburgh, it was fitting that the present editor, Rev. Alexander Clark, D. D., should have been chosen to preach the memorial discourse. From the Zanesville *Courier* we clip the following notice of the occasion:

"The memorial service of the late Rev. Cornelius Springer was largely attended by persons representing nearly all the denominations in the city. The large auditorium of the church was crowded fully half an hour before the service commenced. Professor Lilienthal presided at the organ and introduced the exercises by a patholic voluntary. The choir sung a beautiful anthem, Mr. Brindley, formerly of this city read the nineteeth psalm, and Rev. W. P. Sheom led in prayer. The sermon was by Rev. A. Clark, of Pittsburgh, who held the closet attention of his audience during the hour he spoke. It was one of those rare productions into which the speaker threw his whole soul.

It seemed fitting that the eclesiastical successor of this old and valued friend should pronounce christian eulogy upon his life and labors. The tribute of Dr. Clark awakened a response in every heart in that large audience. The deep pathos and tender expressions of feeling moved many to tears, and to great agitation of the stricken wife was showed by scores of hearts. All felt that a great man indeed had fallen."

Mr. Springer was at one time pastor of the church now, served by Dr. J. J. Murray, on Fifth avenue, this city.

ROADS.

Meeting of the Committee—Expenditures for Last Month.

A regular meeting of the Committee on Roads was held yesterday afternoon, Mr. Breed presiding.

The pay rolls for September were approved as follows:

First District	$ 658 68
Second District	910 11
Third District	1,012 78
Total	$2,581 27

The bill of W. W. Young for $100 for filling Butler street was ordered to be paid.

Ordinances were ordered to be reported to Councils with an affirmative recommendation as follows: Repealing an ordinance grading Iowa street from Clay to Bellefield avenue; for assessment of damages claimed by grading on Hiland avenue between Penn and Fifth avenues; for construction of a wooden bridge over Watson's hollow on Sylvan avenue extension, and changing the name Megran avenue, Thirteenth ward, to Melwood avenue.

An ordinance for the assessment of cost of construction of Ellsworth avenue bridge was referred to commission for the improvement of the avenue.

An ordinance for preventing the Oakland Passenger Railroad Company from laying their tracks on Penn and Hiland avenues within twenty feet of the sidewalks, was referred to the City Attorney for revision and additions with regard to making repairs and reforming alleged abuses in the matter of fares.

It was ordered that $100 be transferred from the Second district appropriation for defraying the cost of a plank road over the swampy road on Broad street.

The awarding of the contract for grading of Euclid avenue was indefinitely postponed, as was also the contract for breaking stone on Wilkins avenue.

A special committee was appointed on the contractors' difficulty in regard to delivering and breaking stone on the several streets.

On motion of Mr. MacConnell the clerk was instructed to notify the Pennsylvania Railroad Company to put in passable condition the approaches to the bridge on Penn avenue, crossing the road, and in case of refusal the City Attorney was directed to institute legal proceedings to compel the company to do so.

Adjourned.

THE HEATERS AND ROLLERS.

Reduction of Wages Suggested by Manufacturers as Necessary.

Under the last agreement made between the manufacturers and the workers in iron, it was stipulated between the parties that sixty days' notice should be given in case of dissatisfaction before any change could be made. For some months past the card rate of iron has been below three and three-tenths, the minimum upon which the scale was arranged, and in consequence the manufacturers claim to have suffered heavily. About a month since a prominent firm gave notice to their heaters and rollers that it would be necessary to reduce their wages, and since then one or two other firms have given similar notice, as required by the agreement. Yesterday an informal meeting of some of the manufacturers was held, and the consultation showed that they would be unable to continue much longer and compete with the low prices of iron elsewhere, if the wages were kept up. No definite action was taken, however, we believe, and it was left with each individual firm to do as best they may under the circumstances.

PUBLIC AMUSEMENTS.

Pittsburgh Opera House.

The Vokes family were again favored with a very large audience, or a very large audience were favored with the Vokes family's performance, just as you choose—probably the latter is the best form of expression. "The Belles of the Kitchen," which everybody declares is too short, was the play, and held every one entranced till the dropping of the green curtain effectually shut off cries for "more." To-night, for the first time in Pittsburgh, one of the best specialties of this talented family will be given. It is entitled "Fun in a Fog," and requires much new scenery, all of which has been prepared in Palmer's best style.

Mrs. Chanfrau at Library Hall.

The first appearance of Mrs. Henrietta Chanfrau and her attractive company at Library Hall last evening, produced a very good impression upon all who heard them. Especially did the talents, beauty, and powers as an actress displayed by Mrs. Chanfrau impress her audience very highly in her favor. Her refined and yet powerful portraiture of the leading character was most effective, and all her auditors joined in acknowledging her ability as an actress, and the beauty and dignity of her appearance. The play presented last evening is rather varied in its character. Its plot is taken from Mrs. Oliphant's novel, "At His Gates," and all the leading incidents of that novel are here presented in an Americanized form, which detracts somewhat from the elevated sentiment of the original work. The dramatization is, in the main, admirably done. Some of the passages are remarkably fine, and one or two of the situations are highly dramatic, but are considerably detracted from by the extreme mediocrity of some of the other scenes. Mrs. Chanfrau's acting in the character of Grace Shirley was throughout elevated and powerful, and the company supporting her—which includes two of last year's Opera House company—made the most of the play, and succeeded in presenting it in an interesting and attractive manner.

To-night Mrs. Chanfrau will appear in the new society play entitled "Was She Right." As this is the first performance of that play, and as Mrs. Chanfrau's appearance in the leading character will ensure a representation well worth seeing, we bespeak for her a crowded house.

Academy of Music.

The undeniably thorough advertisement which has been given to "The Two Orphans" by the legal proceedings in reference to that drama, and the merits of the company presenting the play, brought out another full house last evening, despite the unpleasant character of the weather. The interest of the audience was kept up throughout the play, which elicited frequent applause. As the legal proceedings are still pending it cannot be certainly announced whether "The Two Orphans" will be repeated this evening or not. If the law prevents, some other play will be given, which we hardly need say, will be of a high character, and well put on the stage.

Fifth Avenue Comedy Theater.

There was an improvement in the attendance at this theater, last evening, while that at the matinee was large. The performance is, decidedly, a good one, and deserves much better patronage than has lately been bestowed. Mr. Edwin Pierce is a fair actor, and is well supported by Sam Ryan and the company in the play entitled "A Life's Peril." The olio is good throughout.

Trimble's Varieties Theater.

Fred. Aims' show is still the chief attraction in the variety line, a large audience being present last evening to see and hear the Female Minstrels and the excellent olio entertainment. A grand bill is announced for to-night. Matinee Saturday.

English Opera Bouffe.

Attention is directed to the advertisement, elsewhere printed, of the Julia Mathews English opera bouffe company. They will appear at Library Hall on Monday and Tuesday evenings of next week in two of the best operas in their repertoire. The New York *World*, which is slow to praise new aspirants, says: English opera, which never before excited a smile in this sad land, now bids fair to start a wholesome guffaw, and Miss Julia Mathews to become a general favorite.

Interesting Ejectment Case.

An ejectment suit of considerable interest, which has been on trial in the Common Pleas Court of Fayette, before Judge Stowe, terminated last Monday. It was that of J. Russell Thornton, Esq., of this city, against Wm. Britton, of Brownsville, and was brought to recover possession of a tract of land situated on the Monongahela river, about a mile and a half above Brownsville. The land in dispute was formerly owned by Joseph Thornton, grandfather of the plaintiff, who, at his death, bequeathed it to Eliza Thornton, an illegitimate daughter of Nelson Thornton, who was a son of the testator. There was a clause in the will providing that in case the legatee should die before becoming of age, without issue, the property should revert to the surviving heirs of the devisee. The plaintiff, J. Russell Thornton, is the only surviving heir.

The legatee, Eliza Thornton, in the course of time, married with Colonel John S. Krepps, of Brownsville, and within a year after her marriage died in child-birth. The Thornton heirs then brought on action in ejectment against Krepps, which resulted in favor of the defendant to this extent: The Court (Judge Gilmore) instructed the jury to find for the defendant (Krepps) as a "tenant by courtesy" during his lifetime, and they so found. Subsequently Krepps' life interest was purchased by Mr. Britton, and it was against him that the action just concluded was brought by Mr. Thornton, Krepps having died some time ago.

The case turned on the simple question of fact whether or not the legatee died before the age of twenty-one, the plaintiff averring that she did and the defendant contesting the point. The testimony was very conflicting, family records, old bibles, copies of inscriptions from tombstones, as well as living witnesses being adduced. On the part of the plaintiff the testimony showed that the legatee had died twenty days before her twenty-first birth day. Some of the witnesses were subjected to rigorous cross-examinations, but they did not swerve, and gave the incidents which served to fix the date of birth as well as the time of death in their minds. For the defense some equally positive testimony was adduced, but the jury considered the weight of testimony on the side of the plaintiff and rendered a verdict in accordance with this view. It is understood that the case will be taken to the Supreme Court.

The case was conducted by able counsel on both sides, Charles E. Boyle and G. W. K. Minor, Esqs., for the plaintiff, and W. H. Playford, Alfred Patterson and William Parshall, Esqs., for the defendant.

The value of the land in dispute is estimated at $30,000 to $40,000.

Fell From a Wagon.

A man named Harpee, a freight conductor on the Pan Handle Railroad, was severely injured last evening by falling from a wagon, on Fulton street, near Wylie avenue. He was moving, and was seated on the top of a load of furniture, when a jolt of the wagon caused a portion of the load to fall, carrying Mr. Harpee with it. His head came in contact with the curbstone, and he sustained a violent concussion. He was carried into Ahl's drug store, where he was attended by a physician.

CITY MATTERS IN BRIEF.

THE State Supreme Court adjourned at an early hour yesterday and went into consultation.

THE alarm of fire shortly before six o'clock last evening was caused by the burning of soot in a chimney near station 45.

A LARGE heavy safe, from the Hall Safe and Lock Company of this city, was placed in the Exposition building yesterday, for use of the officers.

A. WATSON, of the firm of Watson & Son, live stock dealers, we regret to learn is lying dangerously ill with typhoid fever at his residence, in the East End.

THE Pittsburgh and Allegheny firemen nines played a game of base ball yesterday afternoon at Union Park which resulted in a victory for the latter by the close score of 23 to 24.

THE new uniforms for the Eighteenth Regiment Band arrived from New York yesterday afternoon, and this already popular organization will appear in their new clothes in the parade to-day.

THE house of Mr. Hamilton, of Mt. Washington, destroyed by fire Tuesday night, was insured in the North American, of Philadelphia, for $2,000, and the furniture for $1,500 in the Atlas, of Hartford, Connecticut.

MR. MCKEE RANKIN, of "Two Orphans'" fame, paid the fine of ten dollars which Judge Ewing imposed upon Henry Jacobs for being too demonstrative when the decision of the Court was announced in the dramatic case.

A WRIT of habeas corpus has been issued on behalf of Mr. Munday, a prisoner in the Workhouse, who is alleged to have been illegally committed. The writ was issued by the Court of Common Pleas, returnable on Friday, at nine o'clock.

THE firm of Gerry, Tilten & Colwell, of New York, were the purchasers of the Pittsburgh Bolt Works, which were sold a few days since for $110,000, the real value of the works being about $400,000. It is said that a short time since the firm proposed to erect a blast furnace and increase its capital stock, issue mortgage bonds on their mill property to all the stockholders who doubled the value of their stock.

"CHIPPY" LONG, who is well known in police circles, was arrested yesterday on Wylie avenue, by Officer Joe Irwin, as a suspicious person. In his possession was found a burglar's "jimmy." He was committed for a hearing on a charge of attempting to break into Seiferth's grocery, at the corner of Center avenue and Elm street. The "jimmy" taken from "Chippy" fitted the marks found on the door of that establishment.

SPECIAL NOTICES.

Schenck's Pulmonic Syrup, for the Cure of Consumption, Coughs and Colds.

The great virtue of this medicine is that it ripens the matter and throws it out of the system, purifies the blood, and thus effects a cure.

SCHENCK'S SEA WEED TONIC, FOR THE CURE OF DYSPEPSIA, INDIGESTION, &C.

The Tonic produces a healthy action of the stomach, creating an appetite, forming chyle, and curing the most obstinate cases of Indigestion.

SCHENCK'S MANDRAKE PILLS, FOR THE CURE OF LIVER COMPLAINT, &C.

These Pills are alterative, and produce a healthy action of the liver without the least danger, as they are free from calomel, and yet more efficious in restoring a healthy action of the liver.

These remedies are a certain cure for Consumption, as the Pulmonic Syrup ripens the matter and purifies the blood. The Mandrake Pills act upon the liver, create a healthy bile, and remove all diseases of the liver, often a cause of Consumption. The Sea Weed Tonic gives tone and strength to the stomach, makes a good digestion and enables the organs to form good blood; and thus creates a healthy circulation of healthy blood. The combined action of these medicines, as thus explained, will cure every case of Consumption, if taken in time, and the use of the medicines persevered in.

Dr. Schenck is professionally at his principal office, corner Sixth and Arch streets, Philadelphia, every Monday, where all letters for advice must be addressed. Schenck's medicines for sale by all druggists.

Headache.

It is an established fact that the extract of cranberries and hemp combined by Dr. Miller, 327 Spruce street, Philadelphia, Pa., permanently cures the most obstinate cases of dyspeptic, nervous or sick headache, and is an absolute specific for Neuralgia and Nervousness. Ex-priest Gerdemann, in an address recently delivered in Philadelphia, said that one Father Wachter, when pastor of Haycock, Bucks county, was urged by Bishop Wood to do all in his power to aid in the election of a Democratic candidate who was pledged to the support of Catholic interests, and that as the favored candidate was defeated "poor Father Wachter never regained the Bishop's favor." This statement was made one week ago in the presence of a large audience, and it has not yet been denied. Instead of answering him, an infuriated mob attacked him and would have torn him to pieces but for the intervention of the police.

Meeting of Tennessee Conference of the M. E. Church.

NASHVILLE, October 6.—The Tennessee Conference of the Methodist Episcopal Church commenced its tenth annual session in Union Chapel to-day, Bishop Bowman, D.D., presiding; L. A. Budisell, Secretary, and C. W. S. Woods, J. N. Tarrentive and J. W. Register, Assistants. The annual exhibit of the Book Concern was presented, showing a very large increase in the sale of books and the circulation of periodicals. Reports were had from three districts, showing a large increase of membership, but a falling off in the collections. Several church edifices have been erected during the year, and others have been improved. Two parsonages have been secured, and lots have been secured for other church purposes.

Westmoreland County Awake.

Special Correspondence of Pittsburgh Commercial.
SHEARER'S X ROADS,
ALLEGHENY TOWNSHIP,
WESTMORELAND CO., Oct. 6, 1875.

Last night the Republicans of Allegheny township held their first meeting during the present campaign at Lynch's school house. It was one of the best Republican meetings ever held in the township. Four-horse teams and two-horse teams loaded with the intelligent farmers and mechanics of the township were out in force. An excellent band of martial music accompanied one delegation, which made one think of the olden times when the people assembled at the tap of the drum and the inspiring note of the fife to consult how treason should be throttled, rebellion suppressed and the Union saved. And what was particularly encouraging was the attendance of people of all parties, who manifested an earnest and honest desire to hear and understand the political issues now dividing the people of the country. The large school room was packed from one end to the other.

On motion of George Sober, Esq., Wm. C. McGeary was chosen President, and on motion of S. P. Faulk, Esq, George Sober, James Moorhead and Thos. S. Irwin were elected Vice Presidents, and H. O. Kline. Secretary

The President then introduced Dr. A. P. Heichhold, of Brookville, to the audience, who proceeded to examine the history and record of the Democratic and Republican parties, and prove by facts and figures that the fomer, when in power in the National Government, had allowed the Union to be disrupted, had ruined the credit of the Government to such an extent that it had to pay twelve per cent. interest in order to effect a loan to carry on the wheels of government during a time of peace; that the same party had bequeathed a State debt of near forty millions of dollars to the Republican party as an evidence of its ability to manage the financial affairs of the State in the interests of economy; that during all the years it had been in power had imposed heavy burdens of taxation for State purposes upon the poor man's cabin and every acre owned and tilled by the hardy and intelligent farmers of the State—and over and above all that as an organization it had proved false to the Union, and had tried, by open and secret efforts, to aid the Southern traitors to destroy it. The Doctor discussed the finance question and other issues plainly and fully, showing that the Republican party is in favor of making every *promise* it gave to the people of the country *good*, including its assurances that *greenbacks* would be redeemed and made as good as coin just as soon as it was practicable to do so. He also showed what the Republican party had accomplished during the war and since it conquered a peace, and that with all this record standing out before the people there could be no mistake about the result of the present campaign in either Ohio or Pennsylvania. But it is impossible to give even a faint and correct outline of his speech. Suffice it to say that he was fair in his statements, truthful in his utterances, exhaustive in his discussion and logical in his conclusions. He commanded the undivided attention of the audience for about one hour and a quarter, and was frequently and vociferously cheered during the delivery of his address, and at its close. He was followed by Mr. J. R. McAfee, editor of the *Tribune and Herald*, at Greensburg. He discussed the currency question, and showed conclusively that the Democracy had utterly and totally abandoned its life-long position in favor of a hard money currency, and had committed itself in Ohio and Pennsylvania to an unlimited, inflated rag money currency, and that, too, in the face of the decision of the Supreme Court that the issuing of "greenbacks" during war times was constitutional as a *war measure* and *only* as a war measure, and plainly giving all the world and the rest of mankind to understand that such an act on the part of the Government at any other time and under any other circumstances would be *unconstitutional*. He also discussed the relative claims of Governor Hartranft and Judge Pershing to the support of the people, as well as local questions affecting the people of the county. He spoke about three-quarters of an hour. Both speeches were pronounced fair and honorable by the Democrats who were present, and the Republicans were greatly encouraged at the success of the meeting. The people in this township are awake and will give a good account of themselves in November.

SAPOLIO
Removes Stains and Grease from Carpets and other woven fabrics.

There is no one article known that will do so many kinds of work and do it as well as Sapolio. Try it.

BANNER BAKING POWDER Is an article that is coming into more general favor every day. By using it according to printed directions the most satisfactory results follow.

BANNER BAKING POWDER Is unequaled for producing light, sweet, nutritious and delicious Biscuit, Rolls, Muffins, Cakes, &c.

BANNER BAKING POWDER Used in Fancy Cakes saves one-third the Eggs and Shortening, and makes them much more palatable than the old way.

BANNER BAKING POWDER In Pot Pies, Dumplings and Puddings renders them easy to take, and they go right to the spot.

BANNER BAKING POWDER Makes Buckwheat Cakes sweet and tender. Made with it they are never sour, as is often the case where yeast is used.

BANNER BAKING POWDER In all kinds of Griddle Cakes, makes them better, quicker and with less labor than in any other way.

BANNER BAKING POWDER Used in Corn Bread, Short Cake, &c., renders them light and healthful. Try it and tell your neighbors what it does for you.

In each can of Banner Baking Powder there is a small measure, and a list of fifty valuable recipes goes with it, by following which all mistakes are avoided. It is sold by Retail Grocers and Dealers generally. If the firm whom you favor with your patronage does not keep it, ask them to order a sample lot from their Wholesale Grocer or from the Manufacturer.

Jesse H. Lippincott,
PITTSBURGH, PA.

The Cincinnati *Times* published the following dispatch from Columbus, Saturday evening: Captain Wikoff, Chairman of the Central Committee, has just received a letter from the chairman of a county Republican committee, saying: "The Chairman of the Democratic Committee of this county has openly made the statement that their party had control of Cincinnati, and that they had 150 men there who would vote from twenty to forty times each." The *Commercial* comments on this as follows: "We have no doubt the Chairman of the Democratic Committee is well informed. The inflationists here mean business. They have their money and their hopes in this campaign. They have maintained a deceptive and ominous quiet. They have all the thieving rings with them. They have the police. They have the bummers. They are as reckless in deeds as in words."
